## Uster Gives Stern Warning to Britain

**SIR EDWARD SAYS BELFAST IN FUTURE WILL ENFORCE LAWS AGAINST SINN FEIN**

(BY CABLE AND ASSOCIATED PRESS.)

BELFAST, July 12.—Celebration of Orangemen's Day had as its feature the customary parade and a speech by Sir Edward Carson, Ulster Unionist leader, whose pronouncement on the Irish situation was anticipated eagerly.

Sir Edward minced no words. The enthusiasm reached a climax when he declared that the government had failed to govern Ireland and that if it could not protect Ulster the volunteers would reorganize and Ulster would take matters in its own hands.

Every hamlet, village and town in Ulster had a celebration and reports tonight are that all passed quietly, even in Londonderry, where the two factions are represented as ready to renew the fighting should military forces relax.

Belfast was heavily guarded, but the only troops allowed out of barracks were those on duty.

BELFAST, July 12.—Victories in the Priet region of the Sinn Fein are reported in the newspapers today. The Sinn Fein leader, Gen. Budenny, has defeated the British soldiers in the Priet region, and the British soldiers are reported to be in flight.

Budenny is now reported to be in flight toward Rovo.

BELFAST, July 12.—The Allies served an ultimatum on the German delegation to the conference here late today that the Germans must agree by 3 o'clock p.m. tomorrow to deliver to the Allies 2,000,000 tons of coal monthly.

Otherwise, the Germans were informed, the Allies will take measures to enforce the terms of the treaty.

Thus negotiations with the Germans have reached another tense point.

The question of coal was the subject of controversy during a three-hour session of Premier Millerand, Premier Lloyd George, Count Sforza, Italian Foreign Minister, Viscount Chamberlain, German Foreign Minister, and Sir Simon, German Foreign Minister, who had with them only one secretary each.

The Allies began by insisting on a monthly delivery of 2,000,000 tons. The Germans offered 1,100,000, and the Allies reduced their demand to 2,000,000.

Dr. Simon represented that coal being the foundation of the industrial life of Germany, every ton Germany sent to the Allies meant that much less production.

He offered to increase coal deliveries from 1,100,000 tons to 1,400,000 within six months, and 1,700,000 tons within a year.

Request also was made that the Allies be allowed to take coal from Germany by rail.

The Allies agreed to accept the German offer, but insisted that the Germans must guarantee that the coal would be used for the Allies' needs.

BELFAST, July 12.—Two uncharted rocks suddenly loomed tonight before the newly launched but yet unrigged third party, and a shipwreck is in sight for tomorrow. They are:

Unwillingness of the American Labor party to accept the intellectual leadership of the Committee of Forty-eight, especially that of its leaders—Amos Pinchot, George L. Record, Allen McCurdy and J. A. H. Hopkins.

Unwillingness of the group of intellectuals named to be involved in what they say threatens to be a class movement or to support a platform that calls for such a radical program as the taking over of all banks and the democratization of industry.

As the result of obstacles thus presented the third party is confronted with two alternatives. They are:

The Committee of Forty-eight convention and the Labor party convention will remain separate each with its own radical groups, and each, probably selecting candidates for President and Vice-President, and each adopting its own platform.

The Committee of Forty-eight convention, which is far more radical than the Labor party, will break away from their control, joining the Labor party and leave the intellectuals who called it into being in utter darkness.

The Labor party tonight maneuvered to force a decision by 10 o'clock tomorrow morning.

**TEN THOUSAND ZIONISTS PLEDGE BRITAIN SUPPORT AS HOLY LAND GUARDIAN**

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, July 12.—Ten thousand Jews, in a demonstration in Albert Hall on the occasion of Great Britain's acceptance of the mandate for Palestine, tonight unanimously adopted resolutions expressive of appreciation of the illustrious services rendered the Jewish nation by the statesmen and peoples of the Allied and associated powers, particularly Great Britain.

The resolutions pledged the Jews "to spare no effort or sacrifice for the rebuilding of Palestine as a Jewish national home, in collaboration with the inhabitants of the country."

Arthur J. Balfour, lord president of the council; the Marquis of Crewe; Dr. Chaim Weizmann, head of the Jewish Administrative Commission, and Jewish leaders representing twenty-eight nations, who are holding a Zionist conference here, addressed the meeting.

Mr. Balfour, accorded an ovation lasting several minutes, said he anticipated greatest difficulty would be the inability of the Jews to work together and obey their leaders.

Max Nordau asserted that the Jews, as well as the English, were politicians and that the British statesmen could be assured that "we want to be Great Britain's ally on the Asia frontier, and if you will permit us to grow as strong as we desire we will watch the Siles Canal for you and be a useful ally if necessary."

Dr. Weizmann, referring to the Palestine Arabs, turned to Mr. Balfour and said:

"The Arab and the Jew will collaborate there on one condition only: That the Arabs respect the right of the Jews to Palestine. This does not mean a source of strength and pride to the mandatory power."

When Jewish C. Wood, labor member of the Parliament, declared the support of the entire Labor party of Great Britain to the Jews, not only to build a Jewish state, but to promote internationalism and bring nearer the brotherhood of man, Baron Rothschild, who presided, was unable to restrain the audience, which rose, cheered, waved flags and sang. The demonstration ended with the singing of "Hatikva," the Jewish song of hope, to the air of "God Save the King."

The Americans to the Zionist conference, who today secured the chairmanship of all the important committees, demanded that all the officers of the conference resign "so that the movement may be organized to meet the new constitution."

It is explained that the move was not intended as a criticism, but that it was considered necessary to carry out the new program.

The American women delegates declined to join the proposed international women's organization, saying they desired to remain an integral part of Zionist America, "where they are accorded equal rights."

**Wet-Dry Issues to be Uppermost, Believes Kenyon.**

(EXCLUSIVE DISPATCH.)

WASHINGTON, July 12.—A straight "wet" and dry issue between Senator Harding and Gov. Cox was forecast today by Senator Kenyon of Iowa, Republican, who has returned to Washington following the hearings held by the Campaign Expenditures Committee, of which he is chairman, at Chicago and St. Louis.

"I think Harding will grow stronger and Cox will grow weaker as the campaign progresses," said Kenyon. "It will be impossible for Gov. Cox to get through the campaign on the wet issue. He is a wet candidate, and everyone knows it. The country is dry. Instead of being afraid of the issue, the Republicans should meet it."

"Coming as I have from the West, I know that the people out there recognize Gov. Cox as a wet candidate trying to slide through the campaign without making his position clear. They will not stand for it."

John R. Hornaday, vice-president of the City Commission, welcomed the veterans on behalf of the city. Mr. Hornaday was accorded much applause when he declared the Kaiser entered the war with a running start and a withered arm, but came out of the war with running feet, a running army and withered hands.

**CHEERS FOR CITY.**

Following Mr. Hornaday's address, the entire delegation rose in response to the cries of cheers for Birmingham. The cheers were led by the "fighting chaplain."

National Commander Hough responded to the address of welcome. He declared he was much touched with the welcome extended by Birmingham and Alabama, the reception reminding him, he said, of the difference between a democracy and a monarchy.

**George Shima Makes Frank Statement Before Congressional Committee; Governor Testifies Today.**

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, July 12.—Both American pleas for closer restriction of Japanese immigration and Japanese opinion in favor of intermarriage between Americans and Japanese were brought before the Immigration and Naturalization Committee of the House of Representatives at its first hearing today on Pacific Coast immigration questions.

Senator James D. Phelan of California was the proponent of more drastic immigration laws, while John P. Irish of Berkeley, an owner of land in the San Joaquin River delta, opposed further immigration, but urged "decency and justice" for the Japanese already here.

George Shima, president of the Japanese Association of America, and known as the "potato king" of California, told the committee he believed intermarriage was a feasible thing.

There may be objections now, but I am sure in the future we will look back upon it as all right," he said. "When potato seed in California is no longer good, we bring in Oregon seed and the second year after it is accumulated, there is a crop of potatoes."

"To be sure, a good many Japanese don't make enough money to support Yankee girls. They are too expensive," he said.

Shima said he saw how from a racial point of view there was an antagonism between Americans and Japanese in California, but did not believe it was very great in an economic sense.

**JAP BOSSSES AMERICANS.**

Shima told the committee that he owned 5500 acres of land in California, but later sold 1250 of it. His own work consisted merely of superintending operations on his potato ranches, he said, with a thirty-eight or forty Americans under him. The Americans farmed barley for him, but not potatoes, he stated.

"If I let Americans farm potatoes I wouldn't get enough for the taxes," he explained.

In reply to Congressman John E. Baker of California, he said he had no connection with any vegetable production or marketing outside of potatoes, but he was raising them near Klamath Falls, Ore.

He and a San Francisco commission merchant owned a tract on the peaches river in Oregon, where they raised seed potatoes, he said, there being no law in Oregon against ownership of land by ineligible aliens.

Shima described himself as a resident of California, but said he had been back to Japan only once, a Methodist, and as president of the Japanese Association of America, an opponent of the establishment of Buddhist temples in this country, and of drinking and gambling among Japanese.

**EMPEROR HONORED HIM.**

"How was it you came to be decorated on your own soil, visit back to Japan," Chairman Albert Johnson asked. "Was it because you were the leading Japanese potato man and farmer in this country?"

"Oh, no," replied Shima. "I don't know myself, but the Japanese papers said it was because my old school-teacher, who was later the Emperor's teacher, kept boosting for me all the time."

Shima and K. A. Kanazaki, secretary of the Japanese Association of America, both said the organization had not concerned itself with immigration questions except to take a census of Japanese in this country last year, by means of a questionnaire showing the date and circumstances of arrival of each immigrant.

The testimony of John P. Irish was largely a detailed reply to the points made by Senator Phelan in support of his assertion that the Japanese were a menace to California, and likely to dominate the State economy.

Senator Phelan referred to letters which he said had come into his possession from sources he declined to disclose, indicating that Col. Irish was in the employ of Japanese propagandists.

Another letter was one he said was written by the Japanese association to Gov. Stephens, commending him for not inflicting anti-Japanese legislation, but the authenticity of which had been denied by both parties.

Col. Irish declared the Stephens letter was a "plant" to find out if Senator Phelan was conducting a system of espionage to get hold of the Japanese association correspondence.

According to Col. Irish, the letter (Continued on Second Page.)

**RAILROADS WOULD KEEP HIGH RATE**

**Fight Against Reduction in Passenger Fares With Resultant Loss is On.**

(EXCLUSIVE DISPATCH.)

CHICAGO, July 12.—The railroads of the country have started a fight in ten States to prevent a reduction in passenger fares from 2 cents to 1 cent per mile and the resultant "minimum" annual loss of \$150,000,000 in revenue. There are still other States in which they will oppose a decrease from 3 to 2 1/2 cents.

Out of the contest the roads may get a decision, because they have raised the point that a Federal law on rate regulation of intrastate business sets aside all State laws, and that the Federal law is in effect. Then the logical next step would be an effort to get such a Federal law.

In the pending scrap the roads are not announcing that they desire one central Federal regulatory body, but on other occasions they have complained of the inconvenience of so many State utilities commissions.

The battle has progressed farther in Illinois than in any other State, according to railroad men interested in all. If the roads win here they expect opposition to fade away in certain other States with a prewar rate of 2 cents a mile. The other States are Ohio, Michigan, Oklahoma, Iowa, Kansas, Indiana, Wisconsin, Minnesota and Nebraska.

**AGENTS SUSPENDED BY PHARMACY BOARD.**

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, July 12.—John Devries and Emil Coret, agents of the State Board of Pharmacy, were suspended today pending outcome of indictments charging perjury and embezzlement in connection with a grand jury investigation of charges that the two men confiscated several thousand dollars worth of drugs and tried to sell them.

loudly cheering speeches by labor party leaders in which plans for union were made. Earlier in the day the convention had appointed a committee to call upon the labor party convention to send two speakers to address the convention of the Committee of Forty-eight.

Duncan, McNeill and W. E. Rodriguez were selected as the labor orators and the sentiments they uttered sent the convention wild.

"As far as I can see the only difference between us is the badge," said one utterance which was loudly cheered.

There was even greater enthusiasm when he proposed:

"Let us get larger hall and all get in together. There is still some opposition to amalgamation, but I don't think it is serious."

It was almost the precise proposition upon which the conference split, but the convention appeared to be almost unanimously in favor of it.

Rodriguez, a former Socialist alderman from the Fifteenth ward in Chicago, stated the obstacles in the way of amalgamation.

"There is a feeling of suspicion among the labor men of the country," he said, "they have supported so many parties and so many individuals, and have been sold out so many times, that they are suspicious of any new movement which is not backed with the rank and file of the people. They are particularly suspicious of men, who, like myself, and the majority of the delegates to this convention, make their living in a little easier way than does the man who weighs the plank or the shovel eight or nine hours a day."

"I have told the labor party that it needs the intellectual leadership which this convention can provide and I believe that if we are patient on both sides, we can get together. There is no essential difference in the platforms and I do not believe that we should let technicalities stand in the way of our union."

The manner in which the convention received the labor speaker was enough to show its disposition, but it was manifested in other ways.

Just before the labor speakers were invited to the convention, the Committee of Forty-eight party, an attempt was made to hold a conference of the rank and file of some of the minor groups, which included the Nonpartisan League, the American party of Texas, the Single Tax party, the World War Veterans, the Rank and File Veterans Association, the Private Soldiers' and Sailors' Association and the American Constitutional Committee.

PLAN BALKED.

But this plan was balked by Edward T. O'Loughlin, one of the leaders of the American Constitutional party. This is the group that had been supporting William H. Hearst as a Presidential candidate.

Heard, who was holding aloof from the other groups as a result, the announcement by Hearst today that he was not a candidate for President and was unable to the candidacy of Senator Robert La Follette, left the Hearst supporters free to join in the general third party movement.

O'Loughlin showed signs of impatience at the conference idea.

"Well, we'll be in here talking to ourselves and no one else for a week," he said. "If you haven't anything better to propose, I'm going home to New York. Take us before your convention; we can do our talking there."

The proposition proved popular and the representatives of the various groups were referred to the convention. William Hard was speaking, but his address was interrupted by the representatives of the minor parties who were themselves heartily for the third party movement.

Those who spoke were O'Loughlin, former Gov. James R. Ferguson of Texas, representing the American party of Texas; Lester Barlow of

the World War Veterans, S. Lowenstein of the Rank and File Veterans and Lou Gould Shedd of the Private Soldiers' Association.

All of the speeches were along the same lines, advocating union of all the radical groups in a third party and denouncing the old parties.

LABOR PARTY STILL OUT.

CHICAGO, July 12.—Representatives of the political and semi-political organizations marched today in formal fashion under the sheltering wings of the Committee of Forty-eight's attempt to create a new fusion party, but the National Labor party, conceded the most important group, was still outside of the fusion arrangements at night.

Statements from the conference room indicated the fusion was high, and that the Committee of Forty-eight representatives objected to the term "democratic operation" applied to the fusion party.

## COX IN EXPLANATION OF

## PRO-GERMAN EDITORIALS.

Democratic Nominee Declares German  
Vote Was Against Him Despite  
Publication of Views.

DAYTON (O.) July 12.—Gov. Cox, the Democratic nominee, undertook yesterday to defend himself against the rabidly pacifist and pro-German editorials that appeared during 1915 and 1916 in the Dayton News, of which he is owner and publisher, textual copies of which were printed in the Sun and the New York Herald.

He entered into a long and rather involved explanation, citing his record as war Governor of Ohio and the fact that German sympathizers voted against him in the State election of 1918.

In an effort to offset the effect the editorials probably will take in the national campaign Gov. Cox did not attempt to deny the authenticity of the editorials, but he made it a point that they had not been written by him personally.

The chief editorial writer for the Dayton News, during the period that the editorials appeared, Gov. Cox explained, was George F. Williams, an editorial writer for the Columbus Dispatch.

"I think he will tell you, when you get to Columbus," said Gov. Cox, "what is the quality of my Americanism."

Gov. Cox said that during the period that the editorials covered although the Lusitania had been sunk with the loss of American lives, and although German plotters had been active in the United States, there was no constant fluctuation of feeling regarding the proper course America should take.

He said that the editorials had been published by the Republican organization in Ohio during his term of office, and that he had no recollection of their being published.

## Investigation Reveals Lieutenants True Character.

Made Love to Young Girl Before He Slew Wife.

CHICAGO, July 12.—Rapid police investigation is tearing away the last tattered shred of decency and claim to honor that Lieut. Carl Wanderer was clinging to—his claim that he was true to the wife he slew and that he never knew another woman.

It was learned today, through passionate love notes, the killing of his wife and unborn babe, he was making desperate love to Miss. He never told his wife he was married, but he had no idea he was married.

A batch of his letters to this girl fell into the hands of the detective. He never told his wife he was married, but he had no idea he was married.

He never told his wife he was married, but he had no idea he was married. He never told his wife he was married, but he had no idea he was married.

## CAPITAL HEARS FLETCHER VIEWS

Advice on Mexico Held to be Superfluous.

State Department Has Acted on Suggestions.

Former Ambassador Said to be Shy of Facts.

(BY A. P. NIGHT WIRE)  
WASHINGTON, July 12.—In Mexican and official circles interested in Mexican affairs, there was much discussion today of the letter which Henry P. Fletcher, former American Ambassador to Mexico, who recently resigned, is reported to have written to Secretary of State Coby, giving the latter advice as to the attitude this government should assume in regard to recognition of the new government in Mexico.  
The general opinion seemed to be that Fletcher's views, while interesting, were somewhat superfluous and that they did not throw any new light on the subject. The State Department already has been giving consideration to the views of the Mexican problem suggested by Fletcher, and doubt was expressed as to whether any new conveyed to government officials any thoughts or ideas with which they are not already familiar.  
As to several of the suggestions made by the former Ambassador, it was stated in one quarter that apparently he has not been keeping himself well posted as to what the government is doing in its dealings with the new regime in Mexico.  
It was pointed out that the State Department already has taken plain that it does not intend to recognize the new government in Mexico except as a de facto one, until it is reasonably assured that the new government is firmly enough established to maintain order and until it is known that lives and property of foreigners will be protected.  
The State Department believes that the new government in Mexico is the strongest which has existed since the overthrow of Diaz and is hopeful that it will be able to evolve a state of peace and order. There has been no indication as yet as to how long this government will wait before extending recognition, but it is known that this will not be done until there is assurance that it is not premature.  
There will be a period of careful study of conditions and a watching of developments in the immediate future so as to avoid a formal recognition which will not be warranted.

## DEBS MAY CONDUCT CAMPAIGN IN CELL

(BY A. P. NIGHT WIRE)  
DETROIT, July 12.—Unless he is pardoned, Eugene V. Debs, Presidential nominee of the Socialist party, will direct the party's campaign this summer from Atlanta Federal prison, where he is serving a sentence for violation of the espionage laws, the Socialist National Committee decided today. Party leaders would visit Debs frequently at the prison.  
The committee decided first, however, to make an appeal to President Wilson for Debs' release. About 200 Socialists plan to call on the President soon and urge him to act on the request made by a similar committee to Secretary Tamm.

Reports are coming in to directors of the Pilgrimage Play of men and women who, coming once to El Camino Real Amphitheater, Hollywood, to see this Passion Play, go back three and four times. From critics to common folk its power is indomitable, its appeal superb. Seat reservations by phone, Broadway 3, Los Angeles 47884, Hollywood—Advertisement.

## Nick's Stolen Kiss Brings Him Black Eye and Jail

(EXCLUSIVE DISPATCH)  
CHICAGO, July 12.—Nick McSheatos pulled off an oculatory stunt today that upset the entire local district.  
He still has the stolen kiss, and a black eye, and the business heart of Chicago is settling back to normal.  
Nick is by way of being something of a cave man. He was loitering around the lobby of the First National Bank.  
Came tripping along Florence Olson, a dainty little stenographer, all curves and dimples and a regular peaches-and-cream sort of girl.  
"Goodnight," said Nick, breathing hard, "a Lulu, and then some."  
As she passed him he threw out his brawny arm, dragged her up against him and kissed her a mighty smack that resounded through the marble corridors.  
Miss Olson squirmed one arm free, screamed and swung her tiny fist upon Nick's eye. Her smash on his face landed almost a badly bruised eye, and he was badly hurt when a traffic policeman dragged him into a cigar store to escape the angry crowd, and summoned a patrol wagon.  
As McSheatos nursed his black eye and numerous wounds he smiled as he remembered the little Dresden China stenographer.  
"It was worth it, I'll say it was," he commented.  
He will probably get fifteen days on the rockpile.

## FRENCH DISCUSS VICE-PRESIDENT

Illness of M. Deschanel Leads to Political Strife.

President's Health Being Restored, Says Message.

Possibility of Senate Chamber Meeting Talked Of.

(BY CONGER REYNOLDS)  
(BY CABLE-EXCLUSIVE DISPATCH)  
PARIS, July 12.—French politicians feverishly are discussing the possibility of a meeting in the Senate chamber at Versailles soon to choose a vice-president, and possibly even a president.  
The well-known mystery which has hidden the facts concerning President Deschanel's condition from the public was lifted somewhat today by publication of an Agency radio note saying the President's health was being restored. M. Deschanel had suffered a new relapse into a state of fatigue requiring constant attendance and complete rest.  
The announcement that the President would be unable to review the troops on the national holiday, July 14, is accepted generally as proof that his condition is serious.  
Tradition attaches the highest importance to participation of the President in the fourteenth ceremonies. The French are asking on the streets and suggesting in the press "what's the use of having a President who is unable to take the center of the stage on July 14?" The possibility of a new election is stirring up party strife.  
The Socialists and Laborites are denouncing the intentions of the conservatives to grab the Presidency. They assert there is a plot to assemble a constituent assembly at Versailles toward the end of July to elect a Vice-President who would become President under a law to be passed later, providing his successor on resignation of the President.  
The Socialists say the Conservatives are plotting to elect the Duke of Castelnau as a hero and the most able French leader. Marshal Foch, M. Poincaré and Gen. Lyautey, Governor of Morocco, are discussed as other possible favorites with the Conservatives.  
M. Deschanel has gone to Rambouillet, as ordered by his doctors, for a complete rest. The public gets no details of his condition. He receives nobody.

## COUNT DE GRAMEDO IS DEAD IN FRANCE

WIDOW IN CHICAGO WITH HER MOTHER AND CHILDREN WILL SAIL SOON.

(EXCLUSIVE DISPATCH)  
CHICAGO, July 12.—The Countess de Gramedo, who is visiting her mother, Mrs. A. Harry Spencer-Brown, was made a widow today by the sudden death of Count de Gramedo, a grandee of Spain, but a citizen of France by naturalization.  
The Count and Countess maintained an elaborate establishment in Paris. A little daughter, Consuelo, and a son, Jean, are with their mother here.  
She and the children, accompanied by her mother, will sail for France as soon as transportation can be secured. The couple were married eighteen years ago while the Spencer-Browns were living in Paris.  
The Count had a beautiful country place just out of Paris, Chateau d'Aux, and was one of the most brilliant horsemen in Europe. He was a distinguished figure in society. He was lieutenant in the French army during the war.  
He was invalided home after an attack of trench fever, but recovered and continued to serve the Allies by breaking American horses for the cavalry. It was a fall from a horse that brought about acute appendicitis and caused his death.  
The splendid chateau was turned over to the convalescent American soldiers and there the countess and her mother devoted practically all their time to the wounded doughboys from the United States.

## SPRUCE CORPORATION SELLS OREGON TRACT

RAILROAD AND SAWMILL INCLUDED; PRICE SAID TO HAVE BEEN \$2,000,000.

(BY A. P. DAY WIRE)  
NEWPORT (Or.) July 12.—The United States spruce corporation has sold the Alsea Southern Logging Railroad, terminating in the Blodgett tract, the tract itself, containing about 750,000 feet of timber, mostly spruce, and the government sawmill at Toledo, it was reported here today.  
The purchasers are said to be a corporation headed by James and William S. Kuhn of Burlingame, Cal., former Pittsburgh bankers.  
The price paid is not known here, but is believed to be \$2,000,000, as that was the only sum the United States Spruce Corporation has ever been willing to consider.  
The sales board of the spruce corporation, purchased the property from the United States government at ten cents on the dollar.

## TIFT TO REPRESENT GRAND TRUNK SYSTEM

(BY A. P. NIGHT WIRE)

## RAINBOW DIVISION REUNION IS OPENED

(BY A. P. DAY WIRE)  
BIRMINGHAM (Ala.) July 12.—The first annual reunion of the famous Rainbow Division began here today, with thousands of soldiers and visitors in attendance. The veterans were welcomed by city and State officials, and later two bronze tablets in memory of those who lost their lives in the war were unveiled.

## MOONEY ESTATE BRINGS BIG TAX

Cincinnati City and Ohio State Each Get \$75,000.

Large California Holdings Yet to be Appraised.

Cash is to be Paid Over at Once by Lawyer.

(EXCLUSIVE DISPATCH)  
CINCINNATI, July 12.—The sum of \$152,735, the largest individual tax ever imposed in Ohio upon an individual estate, will be paid by the executors of the estate of James E. Mooney, pioneer American oak leather magnate, president of the American Oak Leather Company of California and Ohio.  
Cincinnati and Ohio will each benefit over \$75,000 by the collection of this tax.  
According to Maj. S. C. Roettinger, the large tax imposed is the result of the fact the estate both in California, Indiana, Ohio and several other States, is left to distant relatives.  
The grand-nephews and grand-nieces have no exemption and the exemption of nephews and nieces is much smaller than to sons or daughters or to the husband or wife.  
HALF GOES TO CITY.  
Of the \$152,735 total, one-half will be given to the city of Cincinnati and the other half to the State of Ohio. The entry will be recorded in the Probate Court Monday by Maj. Roettinger for the county and Attorney Joseph Lackner, representing the estate. The money will be paid over immediately, it was stated by Mr. Lackner.  
The deceased was a bachelor. He left his entire estate, computed at \$3,624,000 by the appraisers, to his nephews and nieces and grand-nephews and grand-nieces, with the exception of \$18,000 to local charities. A part of the estate, consisting of vast ranches and other water-power holdings in California, was not included by Maj. Roettinger in his computation of the Ohio tax. The tax of \$152,735 was only upon Mooney's holdings in Ohio, which included his stock in the various large holdings in the American Oak Leather Company and other stocks and bonds.  
Mr. Mooney lived at the Havlin Hotel here for several years prior to his death.

## LAKE STEAMER IS RELEASED FROM MUD

(BY A. P. DAY WIRE)  
TOLEDO (O.) July 12.—After having been stuck in the mud in Maumee Bay all during the night, the passenger steamer State of Ohio was released this morning.  
The passengers were removed and brought to Toledo during the night.

## SKIRMISHES NEAR PEKING CONTINUE

DIPLOMATS, HOWEVER, DO NOT CONSIDER FOREIGNERS TO BE IN DANGER.

(BY CABLE AND ASSOCIATED PRESS)  
LONDON, July 12.—Minor skirmishes have occurred between the military factions near Peking, but Peking itself remains quiet, according to a Tien Tsin dispatch to the Exchange Telegraph Company, filed Sunday.  
The diplomatic authorities do not regard the position of the foreigners in Peking as jeopardized.  
The veteran Gen. Chiang Kuai-Ti, the dispatch adds, has proceeded to Peking, Chinli, where he is attempting to reconcile the opposing factions, in which attempt the Tien Tsin vernacular newspaper says he may succeed.  
Railway communication between Tien Tsin and Shanghai has been broken by the military, who have torn up the tracks near Tehchow, Shantung.

## SEAMEN VOTE DOWN WEEK OF 48 HOURS

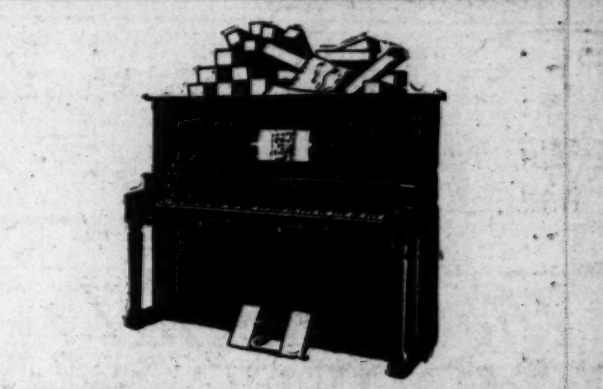

(BY CABLE AND ASSOCIATED PRESS)  
GENOA, July 12.—Although the proposition of the International Seamen's Conference here, for an eight-hour day and a forty-eight-hour week for seamen, was favored by a substantial majority of the conferees, it failed by a fraction of a vote to secure the necessary two-thirds for its adoption. The vote was forty-eight to twenty-five.

## ENVOY FROM MEXICO APPEARS AT LONDON

(BY CABLE AND ASSOCIATED PRESS)  
LONDON, July 12.—Felix Palavicini, Mexican envoy to Great Britain, Spain, France and Italy, today presented his credentials to the Foreign Office.  
He said his mission was to renew relations between Mexico and Great Britain, and also other countries to which he is accredited. He added that the government in Mexico promises to make good damages done to British property there.

## Rheumatism Comes From Tiny Pain Demons

Disease Caused by Germs in the Blood.  
First of all, get it firmly fixed in your mind that all the liniments in the world have no effect whatever on Rheumatism. You may use them by the gallon, and rub the painful parts by the hour, getting possibly some temporary relief from the torturing pains, but you are making no headway whatever toward reaching the cause of the disease. Medical scientists differ as to the cause of every form of rheumatism, but agree that when caused by a tiny disease germ, the only effective method of treatment is to attack the disease at its source, and cleanse the blood of its cause.  
This is why S. S. S., the greatest known blood purifier, is so successful in the treatment of Rheumatism. It is a powerful cleanser of the blood and will remove the disease germs that cause your Rheumatism, affording relief that is genuine.  
S. S. S. is sold by all druggists. Free literature and medical advice can be had by writing to Chief Medical Adviser, 601 Swift Laboratory, Atlanta Ga.—Advertisement.

## FORMER PRINCE WANTS TO MOVE

Heir to ex-Kaiser Would Like to Visit United States.

State Department Likely to be Sounded Out Soon.

Is Anxious to Leave His Voluntary Exile.

By HENRY WALES.

(BY CABLE-EXCLUSIVE DISPATCH.)

WEIRINGEN, July 12.—William Hohenzollern, Jr., the former Crown Prince of Germany, soon will demand of the Dutch government that

he be permitted to emerge from his voluntary exile.

The former Kaiser's son and heir through friends in other countries is quietly and painstakingly ascertaining where he can go, if he is permitted to leave Holland, and is trying to find out in what countries he would be welcome.

William, Jr., ever conscious of the fact that the royal blood of the house of Hohenzollern flows through his veins, would prefer to return to Germany, not as a ruler, but as a simple citizen.

PREFERS UNITED STATES.

But the Crown Prince is quite aware that he probably will not be permitted to return to Germany. He realizes that the French government would object strenuously to such a transfer, and he knows that the present British government, under Mr. Lloyd George, could not assent to such a move.

Since it will probably be ten or fifteen years, in his opinion, before he will be able to return to his fatherland, the Crown Prince has decided that he would best prefer to live during the interim in the United States.

Discreet unofficial inquiries will be made of the State Department in Washington as to the future, if they have not already been made, as to whether William Hohenzollern, Jr., would be permitted to enter the country as a private citizen.

## HARD PROBLEMS UP TO HARDING.

Republican Presidential Can-  
didate in Conferences.

Meets Senator Cummins and  
Ohio State Grange Head.

Gov. Cox Addresses Large  
Crowd in Columbus.

(BY A. P. NIGHT WIRE.)

MARION, July 12.—The trans-  
portation and high cost of living  
problems were discussed at con-  
ferences today between Senator  
Harding and Senator Cummins of  
Iowa, chairman of the Senate Inter-  
state Commerce Committee, and J. L.  
Taber of Barnesville, head of the  
Ohio State Grange. Both came at  
the Senator's request.

Senator Cummins later emphasized  
to the newspaper correspondents the  
gravity of the railroad situation.

"The inability of the railroads to  
do the business of the nation is  
costing the country every day more  
than the German war cost the peo-  
ple any one day," said Senator Cum-  
mins. He added, however, the peo-  
ple do not favor government owner-  
ship, at this time at least.

AGRICULTURE HIGH COSTS.

Mr. Taber said he discussed the  
agricultural situation and the high  
cost of living with Senator Hard-  
ing, whom he found "keenly alive  
to the importance of a proper  
recognition of agriculture," and who  
realizes the necessity of "agriculture  
properly functioning if the nation is  
to enjoy enduring prosperity and  
tranquillity."

John R. Rathum, publisher of the  
Providence (R. I.) Journal, and  
Stephen O. Metcalf, president of the  
company owning that newspaper, al-  
so saw the Senator. They announced,  
however, the visit had no significance.

M. Bonnell, publisher of the News-  
Tribune at Duluth, also discussed  
the situation in Minnesota with Sen-  
ator Harding.

A modification of the front porch

campaign has been inaugurated by  
Senator Harding, who frequently  
confers with visitors while seated on  
the steps of a small side porch just  
off his private office. This is done,  
according to the Senator, so he can  
get away from his desk for a few  
minutes and get a breath of air.

COX ADDRESSES CROWD.

COLUMBUS, July 12.—Gov. James  
M. Cox, Democratic Presidential  
nominee, addressed several thousand  
men and women, most of them from  
Columbus, who gathered at the  
State Capitol at noon today to greet  
him upon his first return to his  
office since his nomination at San  
Francisco.

It had been planned to hold the  
informal reception in the rotunda  
of the State House, but the crowd  
was so large that the speech was  
delivered from the steps of the Cap-  
itol.

Reviewing his three terms as ex-  
ecutive of Ohio, Cox declared he  
had never broken confidence with  
the people of this commonwealth.

The Governor said that it would  
be his purpose to look to the sur-  
vivor, rather than the survivor, of  
the nation's problems.

THE GOLDEN DAWN.

"I have the deepest conviction  
that the guarantee of continued pro-  
gressive government will be adopted  
by the people of the nation in the  
election of Mr. Roosevelt and my-  
self, and that it will be but an ex-  
pression of the nation's desire for  
well-being in the golden dawn of  
tomorrow, rather than the twilight  
zone of yesterday."

"After his brief address, Gov. Cox  
went to the station personally to  
meet his running mate, Franklin D.  
Roosevelt."

Mr. Roosevelt arrived at 1:40  
o'clock and, with Gov. Cox, went  
directly to the executive mansion,  
where they had lunch, and where  
they planned to hold their confer-  
ence. The Vice-Presidential nomi-  
nee expected to leave for Washing-  
ton this evening.

Vice-President Marshall says:  
"Every man, woman and child in  
the United States should see the Pil-  
grimage Play." It is the most  
talked of production of the day, and  
its fame has swept the country  
from coast to coast. Seat reserva-  
tions by phone, Broadway 3 in Los  
Angeles; 573384 in Hollywood.

## GLAD TO SEE AMERICA AGAIN.

Woman Back From Czech-  
Slovakia is Happy.

Asserts Central Europe is in a  
Distressing Condition.

Hate, Distrust, Intrigue and  
Want Rule Countries.

(EXCLUSIVE DISPATCH.)

WASHINGTON, July 12.—Miss  
Julia Lathrop, chief of the Federal  
children's bureau, who has just re-  
turned from Czech-Slovakia, said  
today that she was extremely glad  
to be at home again.

"It is a great thing to be in a  
country where there is peace, real  
peace—and enough to eat," Miss  
Lathrop said. "There is no peace in  
Central Europe and so little food  
that it continues to form the prin-  
cipal topic of conversation."

"Conditions all through Central  
Europe seem even more unbelievably  
painful as I think of them now than  
when I was on the spot. I visited  
Poland, Rumania, Hungary and  
Czech-Slovakia, as well as Czech-  
Slovakia and everywhere there was  
hate, distrust, fear and suspicion,  
intrigue, unrest, uncertainty, dis-  
comfort and want."

"When one can get for breakfast  
at the leading hotel in the capital  
of a country, no milk, no butter, no  
sugar, only a piece of bad bread, a  
cup of black coffee and a little very  
dubious jam, one may imagine what  
life must be like for less fortunate  
and very poor people."

"Housing is rationed. The build-  
ing up of new governments has  
brought to each capital many more  
people than could at first find  
homes."

"When I arrived in Prague the  
American Minister and Mrs. Crane  
were living in two rooms with a  
kitchen and bath, complying strictly

with the law, a very necessary law,  
allowing one room per person with  
a kitchen and bath per family. Con-  
ditions have since improved, and  
Mr. and Mrs. Crane have now taken  
a house."

Real progress is being made in  
Czech-Slovakia and the greatest  
confidence is felt in President  
Masaryk, who is wise, democratic  
and both trusted and loved by the  
people."

**KISTLER GIRL'S BODY  
FOUND IN MERCED.**

(BY A. P. NIGHT WIRE.)

Yosemite, July 12.—The body  
of 12-year-old Gertrude Kistler,  
daughter of Congressman and Mrs.  
Sedgwick Kistler of Lockhaven, Pa.,  
who was drowned near Happy Isles,  
in the Merced River on July 7, was  
found today a short distance from  
where she sank.

The child met death when she  
lost her footing while at play on  
the rocks in the middle of the  
swift mountain stream. H. J. Pink,  
prominent member of the Elks'  
Lodge of Los Angeles, who went to  
her rescue, was killed in a fall on  
the rocks in which his skull was  
fractured.

**BELGIAN MINISTER TO  
PERU DIES AT SEA.**

(BY A. P. NIGHT WIRE.)

NEW YORK, July 12.—The death  
at sea of Leon Guislain, Belgian  
Minister to Peru, was learned today  
when the steamer Elbe arrived from  
the west coast of South America.  
He died July 7 of pneumonia and  
was buried at sea.

**GERMAN FOOD RIOTS  
BRING LOWER PRICES.**

(EXCLUSIVE DISPATCH.)

WASHINGTON, July 12.—Food  
riots have occurred in many places  
in Germany, the State Department  
was advised today, resulting in low-  
er prices.

The American commission at Ber-  
lin reported that consumers are  
practically boycotting the dealers in  
many commodities.

### Business Reserves

In receiving credit lines, in providing for improvements or for future expansion, in safeguarding against depression the RESERVE shown in the business statement is a dominant factor.

If a liberal reserve is gradually set apart from ordinary business assets, a fund may be accumulated which will be quickly available in an emergency. Liberty Bonds now held by business institutions would make an excellent nucleus for such a reserve.

It is as logical for a Business to create a reserve as for an individual. The "Bank of Italy Trust Plan" offers the ideal method. The executive should study its merits, not only as a business expedient but for his personal adoption as well.

Agents for Attorneys Said to

Teacher Sues Because of Un-

PHOENIX, July 12.—Most of the personal damage suits within Arizona are on the basis of injuries received in the mines and are said to be stimulated in some cases by personal agents of attorneys who are said to pay commissions for suits brought to them. As a rule, the lawyer gets half of any money received.

At Globe, in the United States court, C. B. Harris sued the Old Dominion for \$15,000 for injuries alleged to have been received from caving ground in September, 1918. The defense produced witnesses that Harris had rented a farm in Imperial Valley and appeared to have had no difficulty in handling the usual day's work of an able-bodied man. So the plaintiff got judgment for only \$263.50.

PLAINTIFF IS BURNED.  
Charles R. Buckalew at Tucson has been given \$25,000 judgment against the Arizona Copper Company for injuries received in the smelter at Clifton. It is told that the hole of a swinging pot of molten copper broke when the pot was above Buckalew, who thereby was nearly cremated alive.

In Phoenix, Edward Kendall has been awarded \$14,000 in the Superior Court in a \$50,000 suit against the Silver King of Arizona Mining Company. It was alleged that Kendall lost the sight of both eyes and partially lost his hearing when he was buried under rock in a blast.

Damages to the amount of \$40,000 are alleged to be due Pedro Vasquez from the San Xavier Extension Mining Company near Tucson. It is told that in May, Vasquez was using an air compressor pipe to clear out blast holes when the pipe hit and detonated a missed charge of dynamite.

BLOWN INTO THE AIR.  
Somewhat out of the ordinary is the suit of C. A. Brady, who tells that, while he was working in an open cut on the Sacramento Hill property of the Copper Queen Company at Bisbee, he was thrown sixty feet in the air by a blast.

Camille Angerer has been awarded \$500 in a \$10,000 suit against the Marinette Land and Canal Company

for injuries received when he fell from a wagon of the defendant company.

Mariana Bernall has been given \$2000 damages in a suit against Manuel Miranda for injuries received in the upsetting of a service car north of Nogales.

The Western Union Telegraph Company has been sued for \$725 by Arthur L. Phelps who alleges that while he was in Los Angeles in June, 1919, he filed a telegram of acceptance of a position as teacher of science in the High School at Winslow, that the telegram was never delivered and that, in consequence, another teacher was employed. Phelps had to accept a position paying less than that at Winslow, he declares, and he sues for the difference in compensation.

### AIR VICTIMS' BODIES ARE SENT TO HOMES.

AIRPLANE ACCIDENT NEAR ALTURAS ENDS IN TAIL SPIN AND DEATH.

(BY A. P. DAY WIRE.)

RED BLUFF, June 12.—The bodies of Sergt. Wayman Haney and Corporal Antonio Salido, U.S.A., air service, and Harold Rabide, a civilian observer, who lost their lives when Haney's airplane, employed in the national forest fire patrol, crashed to earth near Alturas Saturday, were shipped to their homes in San Diego, Phoenix, and Brookline, Mass., respectively, today.

It was determined today, despite previous official reports that Haney's machine did not break into flames until after it struck the ground.

Haney, who was pilot of the machine, was seen to be in difficulties while 1000 feet up in a return trip from Alturas to Red Bluff. One mile from Alturas he was seen endeavoring to veer for a landing in a field below, but the machine fell into a tail spin and smashed to the earth.

### OPPOSE MIGRATION OF MENNONITE FARMERS.

(BY A. P. NIGHT WIRE.)

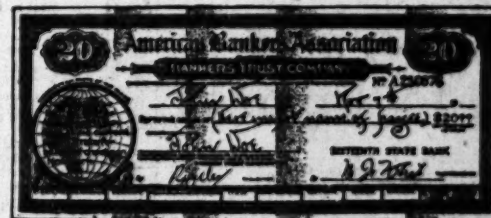

JACKSON (Miss.) July 12.—The Democratic State Executive Committee today adoption a resolution opposing migration of 8000 Mennonite farmers from Canada to Southern Mississippi.

## COX CONFERENCE WITH ROOSEVELT

Announces Fight Will be Carried  
Into Every State.

Campaign in West to Begin at  
an Early Date.

Governor Holds Reception at  
Executive Offices.

(BY A. P. NIGHT WIRE)  
COLUMBUS, (O.) July 12.—  
Franklin D. Roosevelt, Democratic  
nominee for Vice-President, an-  
nounced today following a confer-  
ence with Gov. Cox, Presidential  
candidate, that both had decided  
they would consider no State as be-  
ing hopeless and that they would  
carry the fight into every State dur-  
ing the campaign.

This was the first definite an-  
nouncement from the heads of the  
ticket since their nomination.  
Roosevelt also reiterated Gov.  
Cox's intimation that the campaign  
would be carried into the west at  
an early date. He said he expected  
to take the stump after his notifi-  
cation. The notification ceremony, he  
said, he hoped would be at his  
home at Hyde Park, N. Y. He also  
stated that he expected to resign as  
Assistant Secretary of the Navy  
about August 1, or after the return  
of Secretary Daniels from Alaska.  
His desire to begin preparation  
of his notification speech, he said,  
would hasten his resignation. He  
said he considered the League of  
Nations a dominant issue of the  
campaign, and that he expected to  
make his campaign chiefly on that  
issue.

Roosevelt stated that he hoped to  
be in Dayton July 20 when the  
Democratic National Committee  
meets and also that he hoped to see  
the President soon.

Gov. Cox did not discuss the con-  
ference other than to say they have  
talked some of campaign plans and  
that they expected to continue the  
conference tonight until Roosevelt  
leaves.

It was the Governor's first day at  
the executive office since his nomi-  
nation. At an informal reception he  
spoke to several thousand people, as-  
serting he had never broken con-  
fidence with the people, and adding  
that he had the "deepest conviction  
that the guarantee of progressive  
government will be adopted by the  
people in the election of Mr. Rose-  
velt and myself."

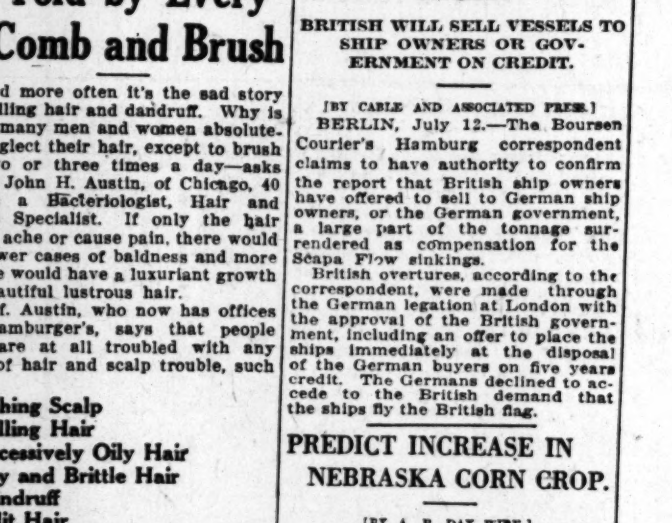

WASHINGTON July 12.—Senator  
Carter Glass of Virginia, home today  
from the Democratic convention,  
declared that Gov. Cox was a sen-  
sitive Democrat and if elected would  
give the country a safe and clean  
administration.

Shortly after his arrival, the Sen-  
ator, who was chairman of the  
Committee on Resolutions, went to  
the White House, but did not see  
President Wilson. He expressed him-  
self as greatly pleased with the con-  
vention, and said he looked for a  
corning good campaign with every  
prospect of victory.

"Of course, I think well of the  
platform," he said, "as I had a  
hand in its preparation. The con-  
vention thought well of it too; in-  
deed, the convention unanimously  
declined to permit it to be tampered  
with. It was impervious alike to  
rhetoric and scheming. It was  
adopted without alteration of a  
word and expresses the convictions,  
the hopes and the aspirations of the  
Democratic party without evasion or  
reservations."

spiration? See the Pilgrimage Play

## There's a Story Told by Every Comb and Brush

And more often it's the sad story  
of falling hair and dandruff. Why is  
it so many men and women absolu-  
tely neglect their hair, except to brush  
it two or three times a day—asks  
Prof. John H. Austin, of Chicago, 40  
years a Bacteriologist, Hair and  
Scalp Specialist. If only the hair  
could ache or cause pain, there would  
be fewer cases of baldness and more  
people would have a luxuriant growth  
of beautiful lustrous hair.

Prof. Austin, who now has offices  
at Hamburgers, says that people  
who are at all troubled with any  
kind of hair and scalp trouble, such  
as—  
—Itching Scalp  
—Falling Hair  
—Excessively Oily Hair  
—Dry and Brittle Hair  
—Dandruff  
—Split Hair  
—Gray or Faded Hair  
Should have their hair examined at  
once under his powerful microscope.  
Prof. Austin says that the use of  
cures, dandruff cures, hair  
tonics, vaseline and elixirs is like  
taking medicine without knowing  
what you are trying to cure.  
During the past five years at Ham-  
burgers Prof. Austin has made thou-  
sands of free microscopic examina-  
tions of the hair and scalp.  
Prof. Austin invites both men and  
women to take advantage of the  
FREE MICROSCOPIC EXAMINA-  
TIONS of the hair and scalp this  
week in his private office on the Sec-  
ond Floor of Hamburgers. Hours,  
10 to 12 and 2 to 4 daily.

## HARDING MEETS WITH ROBBINS.

Labor Problems Discussed at  
Conference.

Progressive Says He Will  
Support Senator.

Cummins of Iowa Also Talks  
With Nominee.

(BY A. P. NIGHT WIRE)  
MARION, (O.) July 12.—Senator  
Harding today conferred with Re-  
publican and Progressive leaders and  
agricultural experts with whom he  
discussed labor, transportation eco-  
nomic and social problems. He also  
replied to the announcement of Gov.  
Cox, the Democratic nominee, that  
if elected a "real dirt farmer" would  
be appointed Secretary of Agricul-  
ture.

The Senator said if the Repub-  
lican policies of practical usefulness  
under which that department had  
created had been carried forward by  
the present administration half our  
problems of high cost of living would  
have been solved in advance.

The principal conference was with  
Raymond Robins of Chicago, and W.  
F. Brown of Toledo, O., prominent  
as Progressives in the 1912 campaign,  
with whom he discussed labor and  
economic problems especially. Later  
Robbins announced that the con-  
ference had been very satisfactory.  
Matters involving the part the  
progressives would take he said, were  
also discussed.

On the fundamentals surrounding  
the general economic situation,  
Robbins said he and the Senator were  
in substantial agreement.  
Robbins said he had communicated  
with several labor leaders to learn  
their views on the Republican ticket  
but most of them wished to read the  
Senator's speech of acceptance be-  
fore committing themselves although  
some already had done so. He an-  
nounced, however, he would support  
the Senator.

While this was understood to have  
been the first extended conference  
at which the Senator had discussed  
the labor situation at length, it was  
understood tonight other similar  
conferences might be expected. Sena-  
tor Harding is understood to be in  
close touch with labor leaders  
recognized as being of the more  
conservative stripe and he is expected  
to seek their views before discussing  
the labor problem in his speech.

Senator Harding when told Gov.  
Clement of Vermont had declined  
to call a special session of the  
Legislature to consider woman suf-  
frage, refused comment except to  
say, "I had hoped that he would."

In his statement on a Secretary  
of Agriculture, Senator Harding said  
he was gratified to know of the  
acknowledgment of at least one mis-  
take of the Democratic administra-  
tion.

REAL DIRT FARMER.  
"I note," he added, "that the Dem-  
ocratic candidate announces, as one  
of the first reforms he has pro-  
posed, to appoint a 'real dirt farmer—  
Secretary of Agriculture. That is a re-  
form the Republican party does not  
need to adopt. For sixteen years we  
had a real farmer from a real farm  
as Secretary of Agriculture—Uncle  
Jim Wilson of Iowa, who made the  
department the greatest of its sort.  
He ran it for the farmers."

"When the Democrats came into  
power, they brought a university  
president as secretary, and after  
him a publisher. The Democratic  
party certainly needs to be reformed  
in this regard. The Republican  
party, certainly does not."

It is gratifying to see this early  
recognition of at least one mistake  
of the Democratic administration  
and purpose to correct it by return-  
ing to Republican methods. A lot  
of others will be found that need  
best be corrected in the same way,  
and when the country comes to pass  
on the program, it will decide to  
apply the Republican method of  
correction directly, through a Re-  
publican administration."

Another caller today was Senator  
Cummins of Iowa, chairman of the  
Senate Interstate Commerce Com-  
mittee, who discussed the transpor-  
tation situation. In a statement, he  
praised the Republican candidate  
who, he declared, is as progressive  
as any man in the country, bar  
none.

To get to work on his speech, the  
Senator planned to go into seclu-  
sion the next few days, beginning  
tomorrow.

NORTHAMPTON (Mass.) July  
12.—The Chamber of Commerce to-  
day appointed a committee of 16  
citizens, to have charge of the no-  
tification of Gov. Coolidge of no-  
mination for Vice-President by the  
Republican convention.

## SURRENDERED BOATS OFFERED TO GERMANS.

BRITISH WILL SELL VESSELS TO  
SHIP OWNERS OR GOV-  
ERNMENT ON CREDIT.

(BY CABLE AND ASSOCIATED PRESS.)  
BERLIN, July 12.—The Bourse  
Courier's Hamburg correspondent  
claims to have authority to confirm  
the report that British ship owners  
have offered to sell to German ship  
owners, or the German government,  
a large part of the tonnage sur-  
rendered as compensation for the  
Scapa Flow sinkings.

British overtures, according to the  
correspondent, were made through  
the German legation at London with  
the approval of the British govern-  
ment, including an offer to place the  
ships immediately at the disposal  
of the German buyers on five years  
credit. The Germans declined to ac-  
cede to the British demand that the  
ships be by the British flag.

PREDICT INCREASE IN  
NEBRASKA CORN CROP.  
(BY A. P. DAY WIRE)  
OMAHA, July 12.—Prediction that  
Nebraska's corn production this year  
will exceed last year's yield by 4,955,  
000 bushels is made in a joint crop  
report by the United States Bureau  
of Crop Estimates and State Depart-  
ment of Agriculture.

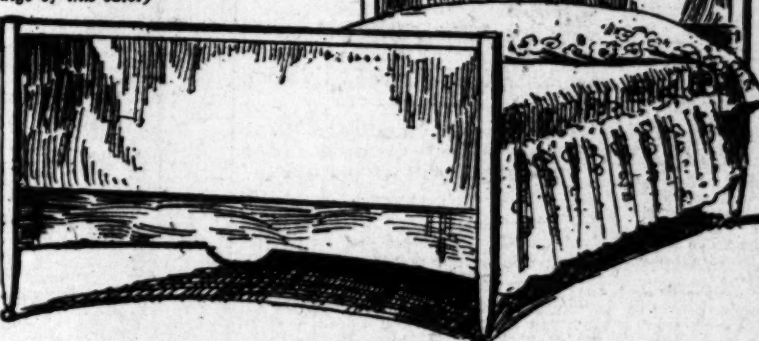

The report estimates 188,241,000  
bushels will be produced, as com-  
pared to 184,186,000 bushels in 1919.  
All wheat production was forecast  
at 3,453,000 bushels less than last  
year when the yield was 60,675,000  
bushels.

Treaty is Ratified at Prague.  
(BY CABLE AND ASSOCIATED PRESS.)  
PRAGUE, July 12.—The Chamber  
of Deputies has ratified a treaty with  
Austria for the protection of minori-  
ties. Parliament adjourned today  
until October 18.

He Quit Tobacco

This veteran, S. P. Lamphere, was addicted to the excessive use of tobacco many years. He wanted to quit but needed something to help.

He learned of a free book that tells about tobacco habit and how to conquer it quickly, easily and safely. In a letter he writes: "I have no desire for tobacco any more. I feel like a new man." Others respond similarly. Wonderful for easily overcoming cigarette and pipe habit, and chewing.

Anyone desiring a copy of this book can get it free, postpaid, by writing to Edward J. Woods, T.D.-51, Station F, New York City. You will be surprised and pleased. Look for quieted nerves, stronger heart, better digestion, improved eyesight, increased vigor, longer life and other advantages if you quit poisoning yourself with tobacco. ## SPECIAL SESSION CALL IS DENIED.

Vermont Governor Refuses to Act on Suffrage.

Decision Comes After Conference With Harding.

Executive Assents Amendment Invades Constitution.

(BY A. P. NIGHT WIRE.)

RUTLAND (Vt.) July 12.—Gov. Clement today issued a proclamation refusing to call the Legislature in special session to make possible ratification of the Federal amendment for woman suffrage.

The Governor's proclamation follows a conference which he held at Washington recently with Senator Harding, at which it is understood the Republican nominee for President discussed with him the possibility of having ratification accepted by the Republican Legislature of Vermont.

INVADING CONSTITUTION.

In giving his reasons for refusing again to call a special session, Gov. Clement said the proposed amendment clearly invades the constitution of Vermont; that the present Legislature was elected before the question of ratifying the Federal amendment had arisen, and that the people of the State have had no opportunity to express themselves on the issue.

The Governor proposed that the matter be taken up by the next Legislature and urged that candidates for election be required to declare themselves on it.

Gov. Clement's proclamation asserted that "as it stands and is interpreted by the Supreme Court today, the Federal Constitution threatens the foundation of free popular government."

The Sixteenth Amendment to the Constitution, he said, had been lobbied through Congress and State Legislatures by Federal agents, and the Eighteenth Amendment had been forced through by "powerful and irresponsible organizations, operating through paid agents."

It is now proposed to force through the Nineteenth Amendment for woman suffrage in the same manner and also without the sanction of the free men.

"I have been asked to overlook these considerations as a matter of party expediency, but this is a matter of principle, not expediency, and the party that invades a well-established principle of popular government will suffer in the end."

NOT ACCEPTED AS FINAL.

(BY A. P. DAY WIRE.)

WASHINGTON, July 12.—The National Woman's party announced today that Gov. Clement's refusal to call the Vermont State Assembly in special session for suffrage ratification would not be accepted as final, and that an even larger delegation than had been planned would call on Senator Harding, charged with Republican Presidential nomination, at Marion on July 22, "to impress him with the necessity of carrying out the suffrage plank and pledges of his party and enfranchising the women of the nation in time for the coming elections."

SENATOR INFLUENCE.

(BY A. P. DAY WIRE.)

NEW YORK, July 12.—When informed of Gov. Clement's refusal to call a special session of the Vermont Legislature to pass on the Federal woman suffrage amendment, Mrs. Carrie Chapman Catt, president of the National American Woman Suffrage Association, today issued the following statement:

"If it is correctly quoted, the decision of Gov. Clement is so contrary to the dictates of justice, common sense and political expediency that it convinces me that there is a sinister and far-reaching influence behind it. To uncover that influence is one of the immediate tasks of the suffragists."

"The work of ratification will be rushed strongly forward in Tennessee and North Carolina."

## Freighter Comes in from Orient After Fast Run.

After a record run, during which she averaged thirteen knots an hour, the steamer Vinita, Capt. Hamma, owned and operated by the Los Angeles-Pacific Navigation Company, arrived here at 3 p.m. yesterday from the Orient, with a full cargo of tea, silk, copra and molasses. The vessel touched at Shanghai, Hongkong, Kobe, Yokohama and Honolulu, making the round trip from this port in three months. She will load again at once and will sail for Asiatic waters again the 28th inst.

The Vinita, and 8800-ton freighter, was built at this port by the Southern Shipbuilding Company. She is one of a fleet of large cargo vessels that the Los Angeles-Pacific Navigation Company has put on the direct run from this city to Japan, China, the Philippines, the Straits Settlements and the East Indies.

## PROBATION PROTECTS FROM PROSECUTION.

FORMER AVIATOR, ACCUSED IN MICHIGAN, CANNOT LEAVE HERE, COURT HOLDS.

When a man has been placed on probation in this State, he is under the jurisdiction of the California courts and cannot be extradited for trial in another State, according to a ruling made yesterday by Judge Craig in the case of George G. Murphy, formerly an army aviator, who was recently arrested on a charge of presenting a fraudulent letter of introduction in Laconia county, Mich. Murphy was released on a writ of habeas corpus.

He was placed on probation here several months ago, after he had committed forgery. He obtained employment and the probation officer reports he has been making good.

After the local courts had released him, the Michigan authorities had him arrested and sought to extradite him. One of the terms of his probation is that he shall not leave the State, and Judge Craig holds that Murphy must live up to this condition. Michigan must wait.

H. G. Geisler, the ex-aviator's attorney, asserted that Murphy's wife, now in Michigan, wants her husband taken to that State so that he may be served with the papers in a divorce action.

It is now proposed to force through the Nineteenth Amendment for woman suffrage in the same manner and also without the sanction of the free men.

"I have been asked to overlook these considerations as a matter of party expediency, but this is a matter of principle, not expediency, and the party that invades a well-established principle of popular government will suffer in the end."

## Re-Opening Colburn's Broadway Fur House Wednesday July 14th

Our friends and patrons are cordially invited to be present at the opening of our beautiful Broadway establishment. With all due modesty, we can state that it is one of the most handsomely appointed and efficiently equipped exclusive fur houses in America.

The motif of decoration is distinctly Parisienne—soft French grays with exquisite mulberry trim. The entire atmosphere is one of refinement and luxury.

In doubling our space we have also vastly increased our facilities. Machinery of the most modern type, and other up-to-the-minute equipment, are special features of our manufacturing and storage departments.

## Special Opening Discounts

To fittingly celebrate our opening, we are offering a very elaborate collection of luxurious fur garments at the most tempting discounts. These creations are the modes of tomorrow.

## Submit Records to Down Charge of Pet Golfers.

Asserting that the attendance during the first six months of the present year of 46,714 golfers shows that the Griffith Park public links are not, as charged, being conducted for the privileged few, the Park Commission will send to the City Council this morning a reply to a complaint received from H. T. Ammon. The commission at its meeting yesterday afternoon directed that the report of Foreman A. B. Coles be forwarded to the Council.

In the report the appointment system attacked by Mr. Ammon is defended, and the statement is made that except on Sundays and holidays a player arriving, even though his name is not in the appointment book, has only a few minutes to wait, as players are sent on to the links at intervals of every five minutes. The commissioners said yesterday afternoon that Mr. Ammon's letter is the first complaint of favoritism received since the links were established.

Although the two vessels left the Los Angeles navy yard at Philadelphia, at the same time, the Yale was delayed at the Panama Canal, and as a result arrived 600 miles behind the Harvard. When she entered port yesterday she was in war gear, and showed signs of hard usage. As she steamed slowly up the channel, numerous craft in the harbor, blew their whistles as a welcome back to the home port.

Yale Hailed By Whistles When She Steams in.

The Yale, sister ship to the Harvard, reached Los Angeles Harbor yesterday morning, after an uneventful voyage under the command of Capt. T. D. McFarland. Immediately upon arrival the vessel was taken to the Ralph J. Chandler shipyard, where she will undergo extensive repairs and thorough renovation, in preparation for entering the coastwise service between Los Angeles and San Francisco. The Harvard reached port Saturday morning and was taken to the drydock of the Los Angeles Drydock and Shipbuilding Company, for repairs.

## CHARTER CHANGES UP.

Special Committee Holds Meeting to Weigh Proposed Amendments.

The first conference to consider the thirty or more charter amendments, which have been proposed, was held yesterday afternoon between Deputy City Attorney Mattoon and the Charter Revision Committee of the City Council of which Councilman Fleming is chairman.

The problem for the committee and the council is to decide not later than August 15, which of the suggested changes shall be placed on the November ballot for submission to the voters. Public hearings will be held some time at night on the most important of the proposed amendments, such as those proposing that the \$1 tax limit be removed, and increases in salaries of the Mayor and other city officials be granted. Chairman Fleming said that the committee will recommend to the Council that the ballot must not contain too many, or unimportant amendments. The committee will hold another conference today.

MISSION WORKER DEAD.

Theodore P. Ferguson, who, for years had preached and worked at the Gospel Mission, 217 South Main street, died at the Mission last night about 7 o'clock. Mr. Ferguson was an earnest, tireless worker and his sincerity and kindness won him many converts and friends. The body is at Pierce Bros. Funeral arrangements have not yet been made.

### SENTENCE RAIL FRAUD ACCUSED.

Seven, Including Woman, Get  
Jail Terms and Fines.

Judge Says Swindle Impulse  
is Far Too Rampant.

Four Cases Yet Left to be Dis-  
posed of Here.

Seven defendants involved in the  
conspiracy to swindle the govern-  
ment through the use of counter-  
feit railroad passes, were sentenced  
in U. S. District Judge Tripp's  
court yesterday afternoon.

In passing sentence, Judge Tripp  
stated that there is an immoral  
spirit abroad in the world that works  
on the theory that it is no sin to  
commit a fraud and is not a crime  
if a railroad is defrauded, said the  
court, "somebody else has to make  
up the shortage for under the law  
and the surveillance exercised by the  
government over the various lines  
much money has to be raised to run  
the roads. The immoral idea is  
running rampant."

The sentences pronounced were on  
the defendants who had pleaded  
guilty and one Dave Grother, who  
had been found guilty of the charge  
by a jury. Those sentenced fol-  
low:

Ned Williams, chief bell hop at  
one of the local hotels, was given a  
fine of \$100 and three months in the  
County Jail for dealing in the  
fraudulent passes.

Harry Mead was given a fine of  
\$100 on the same charge and three  
months in the County Jail.

Louie Gordon, who sent a woman  
friend to Chicago with one of the  
tickets, was fined \$200.

Frank Price, a local automobile  
accessory dealer, who, with his wife  
was taken from a Pennsylvania train  
in New York with a B. & O. pass in  
their possession, was fined \$350.

Charles Orgler, a gatekeeper at  
the Fox studio, who borrowed the  
money to raise \$150 for which he  
secured three tickets to New York  
from Theodore Powell and his wife,  
was fined \$25.

Dave Grother, who was arranging  
to go East and was taken from the  
Salt Lake train at Needles, was given  
three months in the County Jail.

Mrs. Anna Tadenah-Bennett, who  
masqueraded as the wife of Powell,  
the ringleader in the conspiracy, was  
given four months and a half in the  
County Jail for the part she played  
in the fraud game. The unfortunate  
woman gave way to a fit of weep-  
ing when judgment was pronounced  
and had to be led from the court-  
room.

The cases of P. H. Halbritter, Al-  
bert Clark, David Weatherly, father  
of Theodore Powell, and O. E. Brown  
are yet to be disposed of. They  
have all pleaded not guilty. Brown  
was a business partner of Powell,  
but declares he knew nothing about  
the game that Powell was playing.

### Driven Out Says Bride Who Took Flyer in Shoes.

Harry R. Burns and Edith Flor-  
ence Burns were married last April  
29, and on June 26, she declared  
in Judge Stephens' court yesterday,  
her husband ordered her out of the  
house. A shoe bill for \$92, presented  
six weeks after the marriage, and  
other assorted extravagances on the  
part of the bride were brought out  
during the hearing for temporary  
alimony, pending the trial of Mrs.  
Burns' suit for separate main-  
tenance. The court ordered Mr. Burns  
to pay his wife \$100 a month until  
the suit is tried.

### CLEAR AIR OF OLD GRUDGES.

Cinema Heads Meet Assessor  
on Valuation Points.

Discrimination Charges Due  
to Misunderstanding.

County Official Willing to  
Provide Tax Expert.

Clearing of the atmosphere and  
an amicable understanding for fu-  
ture guidance resulted yesterday at  
a special meeting of the Manufac-  
turing Committee of the Chamber  
of Commerce, which was attended  
by representatives of the cinema in-  
dustry and also by the County As-  
sessor.

After a hearing of the specific  
complaints of some of the produc-  
ers, the character of which indi-  
cated the chamber might be of  
service in adjusting grievances, it  
was brought out that the fault lay  
largely in misunderstanding and  
probably can be straightened out to  
the satisfaction of all concerned.

Representing the producers were  
Abraham Lehr, president of the Mo-  
tion Picture Producers' Association,  
and W. J. Reynolds, secretary of the  
organization. Assessor Hopkins was  
present, and was felicitated on the  
outcome.

Mr. Reynolds stated that in re-  
sponse to a questionnaire sent to the  
forty-one producers belonging to the  
organization, replies reciting specific  
complaints had been received from  
only two. It was indicated in these  
and other complaints previously  
made orally that the high assess-  
ments complained of resulted from  
errors in reports of plant values sub-  
mitted by the companies.

Mr. Hopkins assured the produc-  
ers that he will be glad at any time  
to confer with a producer who be-  
lieves he is being overcharged for

taxes. He also offered to provide  
producers with a tax expert for con-  
ferences and to give information.

The producers also pledged them-  
selves to co-operate with the indus-  
trial department of the chamber in  
establishing vocational training  
school units in the downtown dis-  
tricts similar to that unit already  
in operation, at which garment-mak-  
ing is taught under the supervision  
of the Board of Education. The many  
technical positions created by the  
development of the cinema indus-  
try, it was stated, would make a  
training school a valuable adjunct.

### To Learn Plans, Arrange Arrest of Jack Johnson.

In view of the conflicting stories  
as to when Jack Johnson, the negro  
pugilist, intends to cross the line  
from Mexico to surrender and serve  
his year and a day sentence on a  
white slave charge in Chicago, Asst.  
U. S. Atty. Green will go to San  
Diego this evening to get some data  
if possible on the future movements  
of the fugitive. U. S. Atty. Connor  
will follow tomorrow, bound on the  
same mission.

There is no change in the pro-  
posed program outlined, when the  
stories first became current that the  
big fighter was about to give him-  
self up. This involves taking John-  
son to San Diego and having him  
made the subject of a removal war-  
rant by U. S. Commissioner An-  
drews, to be followed later by an  
order of removal to Chicago, entered  
by either U. S. District Judge Tripp  
or Judge Blodgett.

There was a story current yester-  
day that Johnson would go to En-  
senada and board a steamer for this  
harbor. If he does, he will be ar-  
rested as soon as he steps off the  
boat.

Go to the Pilgrimage Play at El  
Camino Real Amphitheater, Holly-  
wood, this week. Thousands attend  
every night and hundreds return to  
see it again. Seats reserved by  
phone, Broadway 3, Los Angeles,  
and 57834, Hollywood.—[Adver-  
tisement.]

### MIDDLE WEST NEWS IN BRIEF.

[EXCLUSIVE DISPATCH.]

#### INDIANAPOLIS.

INDIANAPOLIS, July 12.—The  
special session of the Legislature  
which opened here today, is the  
thirteenth special session in the his-  
tory of the State.

The Legislative Committee of the  
Indiana Farmers held a meeting  
yesterday and decided to press a  
blue sky measure, a pure seed law  
and an interurban bill, which will  
permit the hauling of live stock on  
all rights of way, at the special  
session of the Legislature.

According to figures made public  
yesterday the total debt of the  
schools of the city amounts to \$7-  
\$13,056. The treasury has approxi-  
mately \$4,300,000 on hand.

son of E. L. Howe of the Scruggs  
Vandervoort Barney Drygoods Com-  
pany, was killed while playing golf  
on the triple A course in Forest  
Park.

Mayor Kiel has written a letter to  
Senator Warren G. Harding of Ohio,  
Republican nominee for President,  
inviting him to attend a perform-  
ance at the municipal opera in For-  
est Park on July 25, when the Sen-  
ator has promised to be present  
at the dedication of the memorial  
park by the American Legion.

Herman C. Herrmann, 28 years  
old, a salesman for the American  
Radiator Company, was drowned in  
Elk Creek at Noel, Mo., Saturday,  
while attempting to rescue Mrs.  
M. E. McDaniels of Kansas City,  
who was saved.

Five persons were injured, when  
Dr. Lafayette Reid, a dentist of  
Upper Alton, Ill., lost control of the  
automobile he was driving west on  
the McKinley bridge.

#### ST. PAUL.

ST. PAUL, July 12.—Commander  
Louis H. Maxfield, St. Paul, whose  
heroism during the war won for  
him many decorations from both  
the United States and the French

government, expects to add to his  
laurels by piloting to the United  
States within the next few weeks

and Congressional offices in Minne-  
sota have named a State Central  
Committee of eighty-two members,  
and outlined a vigorous campaign  
for national and State tickets.

#### KANSAS CITY.

KANSAS CITY (Mo.) July 12.—  
The City Treasurer's office will be  
closed ten days or two weeks be-  
ginning today, while the taxes on  
his books are adjusted to conform  
with the Supreme Court decision  
invalidating the special 2-mill police  
levy.

The Seventh Regiment, 558  
strong, departed from Union Sta-  
tion Saturday midnight, on two ap-  
ical Missouri Pacific trains, for two  
weeks camp at Nevada, Mo.

The largest real estate sale in the  
west bottoms this season was con-  
summated Saturday. The Oliver Child  
Flour Works of South Bend, Ind.,  
implement manufacturers, bought  
the Parlin and Orendorff building.  
The consideration was \$375,000.

The month of June maintained  
its reputation as the premier  
season for brides, in Leaven-  
worth, breaking all records for any  
single month in marriage licenses  
issued. Probate Judge Wattle is-  
sued 194 licenses. The judge at-  
tributed the rush to leap year.

#### DENVER.

DENVER, July 12.—The city of  
Golden will issue bonds to construct  
concrete or asphalt paving from  
the end of the Denver-Golden high-  
way through the city to the foot of  
Lookout Mountain.

United States Marshal Burris an-  
nounces his candidacy for the Dem-  
ocratic nomination for Congressman  
from the Third District.  
Yesterday was the anniversary of  
the discovery of Colorado's State

flower, the Columbine, by Long's  
exploring party, on the present site  
of Pinecrest Inn at Palmer Lake.  
Attorney Phillip S. VanCleave is a  
candidate for the Republican nomi-  
nation for District Attorney.

#### MINNEAPOLIS.

MINNEAPOLIS, July 12.—For the  
third time an appeal for clemency  
will be made to the State Pardon  
Board at its meeting today in the  
case of Joseph W. Bragdon, wealthy  
Minneapolis business man convicted  
in June, 1916, of an offense against  
a young girl in the "Uncle Ned" trial  
in Minneapolis. Bragdon is serving  
an indeterminate sentence of one to  
seven years in prison.

#### OMAHA.

OMAHA, July 12.—The largest  
still ever found in a moonshine  
plant in Nebraska was raided last  
night in Pratt street. O. L. Stephens  
and J. M. Carson were arrested. Po-  
lice say the plant was selling fifty  
gallons of booze every day.  
City Commissioner Falconer was  
taken seriously ill on his return from  
the Pacific Coast.

#### DETROIT.

DETROIT, July 12.—George A.  
Monahan, lawyer, orator and for-  
mer State Senator, is dead from  
heart disease. He was 43 years old.  
After being out for nearly twelve  
hours the jury in the case of Cecelia  
Morgan Parker, charged with driv-  
ing an automobile while intoxicated,  
was unable to agree and was dis-  
charged at midnight.

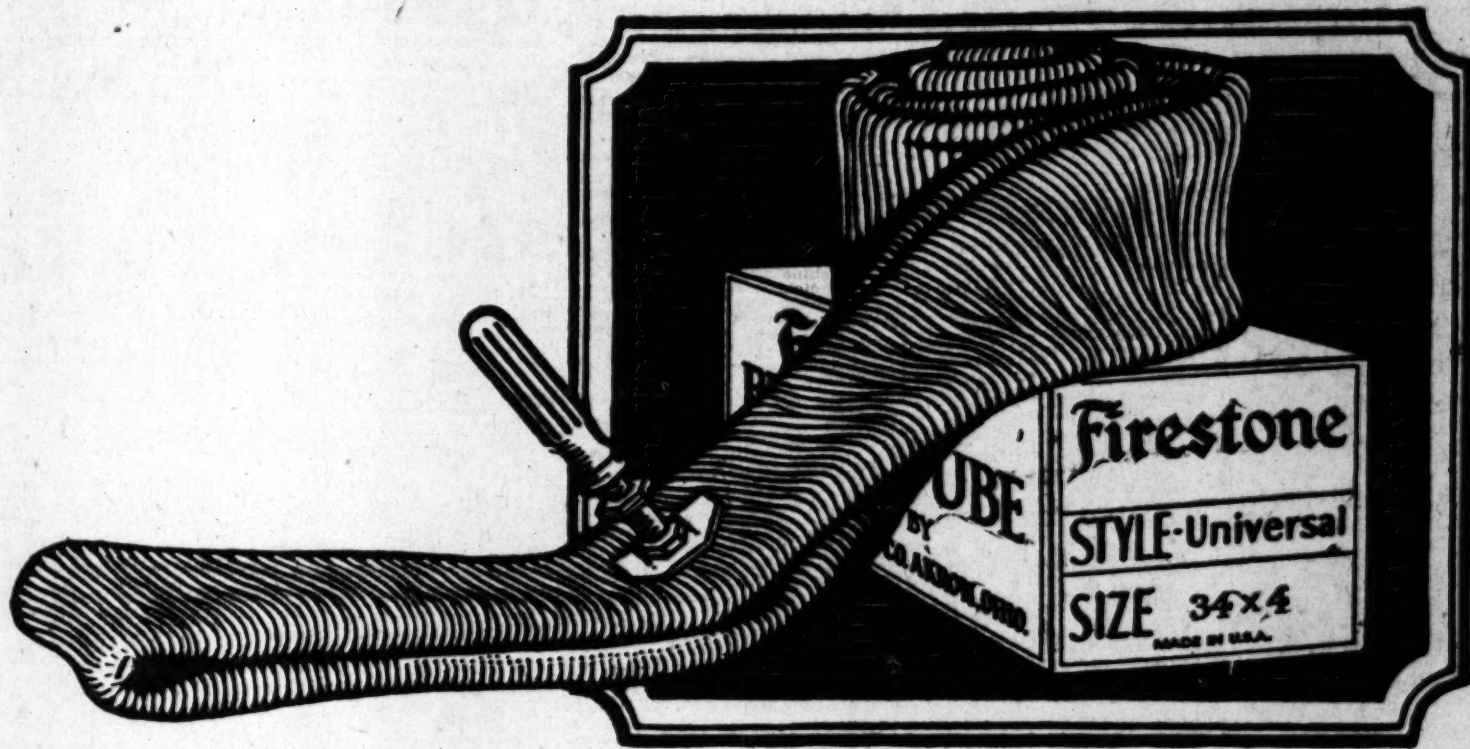

#### MILWAUKEE.

MILWAUKEE, July 12.—Seventy-  
two Wisconsin bankers will tour  
Europe in August. The trip is be-  
ing arranged by George D. Bartlett,  
secretary of the Wisconsin Bankers'  
Association.

Raymond T. Zillmer, secretary of  
the Good Government League said  
yesterday that unless Democrats and  
Republicans put up a fusion ticket  
the Socialists will again be victorious  
in the fall election.

The Wisconsin Federated Printing  
and Press Associations will meet  
here July 22 and 24.

tured before the Theosophical So-  
ciety on cycles of human knowledge.

# A big-scale road test on 3,200 tubes

**How Firestone puts the miles in—and then proves it  
—not at YOUR expense**

No other tubes in the world are road tested on so  
big a scale as Firestones. The Yellow Cab Com-  
pany of Chicago uses Firestone Tubes exclusively  
on its 800 taxicabs. The service of these tubes is  
checked constantly—improvements and develop-  
ments are arrived at.

By close watching of a large number of tubes in  
service—not confined to isolated instances—the  
conclusions are accurate and definite.

Firestone puts the best in materials into tubes by

establishing purchasing experts at Singapore,  
center of the world's rubber market. Firestone  
puts the best in workmanship into tubes by orga-  
nizing the crack manufacturing organization of  
the industry on a profit-sharing basis.

And then subjects the finished product to this  
big-scale road test—in order to get you more for  
your tube money and more miles out of your  
tires. And yet Firestone Tubes cost no more  
than the ordinary kind.

## SENTENCE RAIL FRAUD ACCUSED.

Seven, Including Woman, Get  
Jail Terms and Fines.

Judge Says Swindle Impulse  
is Far Too Rampant.

Four Cases Yet Left to be Dis-  
posed of Here.

Seven defendants involved in the  
conspiracy to swindle the govern-  
ment through the use of counter-  
feit railroad passes, were sentenced  
in U. S. District Judge Trippe's  
court yesterday afternoon.

In passing sentence, Judge Trippe  
stated that there is an immoral  
spirit abroad in the world that works  
on the theory that it is no sin to  
commit a fraud on a railroad.  
"A railroad is defrauded," said the  
court, "somebody else has to make  
up the shortage for under the law  
and the surveillance exercised by the  
government over the various lines  
much money has to be raised to run  
from roads. The immoral idea is  
running rampant."

The sentences pronounced were on  
the defendants who had pleaded  
guilty and one Dave Grosher, who  
had been found guilty of the charge  
by a jury. Those sentenced fol-  
low:

Ned Williams, chief bell hop at  
one of the local hotels, was given a  
term of \$100 and three months in the  
County Jail for dealing in the  
fraudulent passes.

Harry Mead was given a fine of  
\$100 on the same charge.

Louie Gordon, who sent a woman  
friend to Chicago with one of the  
tickets, was fined \$200.

Frank Price, a local automobile  
accessory dealer, who, with his wife  
was taken from a Pennsylvania train  
in New York with a B. & O. pass in  
their possession, was fined \$250.

Charles Orsler, a gatekeeper at  
the Fox studio, who borrowed the  
money to raise \$150 for which he  
secured three tickets to New York  
from Theodore Powell and his wife,  
was fined \$25.

Dave Grosher, who was arranging  
to go East and was taken from the  
Salt Lake train at Needles, was given  
three months in the County Jail.  
Mrs. Anna Tadenish-Bennett, who  
masqueraded as the wife of Powell,  
the ringleader in the conspiracy, was  
given four months and a half in the  
County Jail for the part she played  
in the fraud game. The unfortunate  
woman gave way to a fit of weep-  
ing when judgment was pronounced  
and had to be led from the court-  
room.

The cases of P. H. Halbritter, Al-  
bert Clark, David Weatherby, father  
of Theodore Powell, and O. E. Brown  
are yet to be disposed of. They  
have all pleaded not guilty. Brown  
was a business partner of Powell,  
but declares he knew nothing about  
the game that Powell was playing.

## Driven Out Says Bride Who Took Flyer in Shoes.

Harry R. Burns and Edith Florence  
Burns were married last April  
29, and on June 26, she declared  
in Judge Stephens's court yesterday,  
her husband ordered her out of the  
house. A shoe bill for \$92, presented  
six weeks after the marriage, and  
other asserted extravagances on the  
part of the bride were brought out  
during the hearing for temporary  
alimony, pending the trial of Mrs.  
Burns's suit for separate main-  
tenance. The court ordered Mr. Burns  
to pay his wife \$100 a month until  
the suit is tried.

## CLEAR AIR OF OLD GRUDGES.

Cinema Heads Meet Assessor  
on Valuation Points.

Discrimination Charges Due  
to Misunderstanding.

County Official Willing to  
Provide Tax Expert.

Clearing of the atmosphere and  
an amicable understanding for fu-  
ture guidance resulted yesterday at  
a special meeting of the Manufac-  
turing Committee of the Chamber  
of Commerce, which was attended  
by representatives of the cinema in-  
dustry and also by the County As-  
sessor.

After a hearing of the specific  
complaints of some of the produc-  
ers, the character of which indi-  
cated the chamber might be of  
service in adjusting grievances, it  
was brought out that the fault lay  
largely in misunderstanding and  
probably can be straightened out to  
the satisfaction of all concerned.

Representing the producers were  
Abraham Lehr, president of the Mo-  
tion Picture Producers' Association,  
and W. J. Reynolds, secretary of the  
organization. Assessor Hopkins was  
present, and was felicitated on the  
outcome.

Mr. Reynolds stated that in re-  
sponse to a questionnaire sent to the  
forty-one producers belonging to the  
organization, replies rectifying specific  
complaints had been received from  
only two. It was indicated in these  
and other complaints previously  
made orally that the high assess-  
ments complained of resulted from  
errors in reports of plant values sub-  
mitted by the companies.

Mr. Hopkins assured the produc-  
ers that he will be glad at any time  
to confer with a producer who be-  
lieves he is being overcharged for

taxes. He also offered to provide  
producers with a tax expert for con-  
ferences and to give information.

The producers also pledged them-  
selves to co-operate with the indus-  
trial department of the chamber in  
establishing vocational training  
school units in the downtown dis-  
tricts similar to that unit already  
in operation, at which garment-mak-  
ing is taught under the supervision  
of the Board of Education. The many  
technical positions created by the  
development of the cinema indus-  
try, it was stated, would make a  
training school a valuable adjunct.

## To Learn Plans, Arrange Arrest of Jack Johnson.

In view of the conflicting stories  
as to when Jack Johnson, the negro  
pugilist, intends to cross the line  
from Mexico to surrender and serve  
his year and a day sentence on a  
white slave charge in Chicago, Asst.  
U. S. Atty. Green will go to San  
Diego this evening to get some data  
if possible on the future movements  
of the fugitive. U. S. Atty. Conner  
will follow tomorrow, bound on the  
same mission.

There is no change in the pro-  
posed program outlined, when the  
stories first became current that the  
big fighter was about to give him-  
self up. This involves taking John-  
son to San Diego and having him  
made the subject of a removal war-  
rant by U. S. Commissioner An-  
drews, to be followed later by an  
order of removal to Chicago, entered  
by either U. S. District Judge Trip-  
pet or Judge Blidsoe.

There was a story current yester-  
day that Johnson will go to En-  
senada and board a steamer for this  
harbor. If he does, he will be ar-  
rested as soon as he steps off the  
boat.

Go to the Pilgrimage Play at El  
Camino Real Amphitheater, Holly-  
wood, this week. Thousands attend  
every night and hundreds return to  
see it again. Seats reserved by  
phone, Broadway 3, Los Angeles,  
and 57334, Hollywood.—[Adver-  
tisement.]

## MIDDLE WEST NEWS IN BRIEF.

[EXCLUSIVE DISPATCH.]

### INDIANAPOLIS.

INDIANAPOLIS, July 12.—The  
special session of the Legislature  
which opened here today, is the  
thirteenth special session in the his-  
tory of the State.

The Legislative Committee of the  
Indiana Farmers held a meeting  
yesterday and decided to press a  
blue sky measure, a pure seed law  
and an interurban bill, which will  
permit the hauling of live stock on  
all rights of way, at the special  
session of the Legislature.

According to figures made public  
yesterday the total debt of the  
schools of the city amounts to \$7-  
742,050. The treasury has approxi-  
mately \$4,300,000 on hand.

### ST. LOUIS.

ST. LOUIS (Mo.) July 12.—  
Stephen Roland Howe, 26 years old,  
son of E. L. Howe of the Scruggs  
Vandervoort Barnes Drygoods Com-  
pany, was killed while playing golf  
on the triple A course in Forest  
Park.

Mayor Kiel has written a letter to  
Senator Warren G. Harding of Ohio,  
Republican nominee for President,  
inviting him to attend a perform-  
ance at the municipal opera in For-  
est Park on July 25, when the Sen-  
ator has promised to be present  
at the dedication of the memorial  
park by the American Legion.

Herman C. Herrmann, 34 years  
old, a salesman for the American  
Radiator Company, was drowned in  
Elk Creek at Noel, Mo., Saturday,  
while attempting to rescue Mrs.  
M. E. McDaniels of Kansas City,  
who was saved.

Five persons were injured, when  
Dr. Lafayette Reid, a dentist of  
Upper Alton, Ill., lost control of the  
automobile he was driving west on  
the McKinley bridge.

### ST. PAUL.

ST. PAUL, July 12.—Commander  
Louis H. Maxfield, St. Paul, whose  
heroism during the war won for  
him many decorations from both  
the United States and the French

government, expects to add to his  
laurels by sailing to the United  
States within the next few weeks  
on the dirigible R-28, the largest airship  
in the world, now under construc-

# The People and Their Daily Troubles

## THROUGH THE WIDOW'S LORGNETTE.

By Helen Rowland.  
THE SPOILED SEX.

"There!" exclaimed the Widow with a sigh of relief, as she rose from her desk. "It's all over! The last note of thanks has been written, the Christmas tree is down, and all the holiday debris has been cleared up. Oh, if I were only a man!"

"Thanks—for the tribute!" said the Bachelor, cheerfully endorsing himself in the most ingratiating chair. "But I don't quite see the connection."

"A man's life is such an easy, care-free existence," explained the Widow, fully. "He is never expected to 'clean up' things, nor pick up things, nor find things, nor put things away. The state is always cleared for his entrance and after his departure, he escapes all the ugly, disagreeable, harrowing little details of life. He is the most pampered being on the face of the earth!"

"Humph!" returned the Bachelor, "who goes around picking up all the things that a woman is continually dropping, I'd like to know—the fans and handkerchiefs, and vanity cases, and hairpins, and hints, and secrets, and—"

"Oh that!" interrupted the Widow with a wave of her hand. "That is just a pretty, simple, little parlor trick that we've taught you as a sop to your own vanity. A woman just loves to believe that she is a delicate, helpless creature, being waited on and 'protected' and having all the burdens lifted off her shoulders by a big, strong man! It's an obsession with her. But when it comes to genuine helplessness and inertia—well, show me a man who has the energy and muscle to fix his own bath or find his own clothes, if he can get a woman to do it for him!"

"Oh, well, if you will spell us!" began the Bachelor defensively.

"But we don't," retorted the Widow. "Man spoils himself from the time when he begins throwing his toys on the floor for his nurse to pick up, to the time when he begins flinging his shoes and cigar stubs and newspapers around for his wife to pick up."

"Perhaps," admitted the Bachelor, "but he only does it out of kindness of heart—just to humor you."

"What?" exclaimed the Widow, half rising from her chair.

"To give you something to do," answered the Bachelor, calmly blowing rings from his cigarette.

expect a man to do all those petty feminine things, do you?"

"No," sighed the widow. "I'd be a disappointed woman, if I did! That's why I yearn to be a man!"

"There you go again!" complained the bachelor. "Do you know it shocks me and makes me feel creepy all over to hear a little five-foot-two creature in pink tulle and chiffon and violet sashet say a thing like that?"

"Oh I don't yearn to look like one, the widow hastened to reassure him. 'Nor to exchange clothes, nor morals, nor habits with one! But I should love to be able to splash all the big colors on the canvas of life, and then go off and meditate on my marvelous accomplishments, while somebody else filled in the details. I should love to have all the big, showy, 'fat roles' in the human comedy, all the interesting, easy, spongy things to do. I should like to have the stage all set for my entrance, and the limelight turned on me during my 'big scenes,' and the details all cleared away after I had finished. I should love to be the motif of the picture instead of just a part of the ensemble! And sometimes, I've thought that if I only had all the things I want, I'd be a man!"

"Oh, nonsense!" broke in the bachelor. "A woman has twice as much time as a man!"

"That's because a man spends half his time in thinking up things for a woman to do," said the widow, sadly. "But even at that, I've observed that a man always has time for anything he wants to do. Next to business, time is the most flexible and useful asset in the bright lexicon of the pampered sex!"

"Should Help Him."

LOS ANGELES, July 11.—[To the Editor of The Times:] Every officer of the labor unions of this city should be arrested and jailed for securing money under false pretenses, if some of the reports now current in the County Hospital are true. There is an old man out there worrying himself sick over his union dues. He has been in the hospital, seriously ill, for three months, and during that time, of course, has not been able to pay his union dues, and now he says the unions will fine him \$25 because of his failure to pay. I have been to the County Hospital on several occasions to see this man and others, and every time I see him he asks me about his union dues. Union organizations are said to be organized for the benefit of the workers. I cannot see how this man's affiliation with the unions is doing him any good, at this time, which is probably the one time in his life that he really needs help.

LOS ANGELES, July 12.—[To the Editor of The Times:] Being engaged in humanitarian work in my home State—Colorado—I naturally follow the trend of the work in other communities, and, based on observations I have made, my impression is that the great city of Los Angeles appears to be woefully lacking in a concerted effort to really do the things it should in relieving distress among the lesser animals.

Certain individuals may have a sympathetic and heart interest in protecting helpless creatures, but the organized societies, to my mind, fall short of their alleged aims.

A humane officer is born—not made—and until such time as the "job" element is abolished, and real, honest and sincere people take hold, then water, cacti, etc. as I have seen, will continue.

Any parties who desire information as to the plan and scope of our organization in Colorado, if they

will write me, I will be glad to answer their communications.

He states that coca-cola syrup has advanced 10 cents a gallon. He has been misinformed as the increase has been from 50 cents to 75 cents a gallon depending on quantity purchased. Concentrated syrups and fountain fruits have advanced on the average about 400 per cent as has sugar while ice cream has scored about 125 per cent advance. Drums of gas for charging the water have gone from \$1 to \$5. Help is receiving at least 100 per cent more; in fact every item of overhead has increased to a considerable extent. Real business men everywhere have to contend with the ignorance of some would-be competitors, who do not know what it costs them to do business or even the net cost of their goods on the shelf. They wake up some morning

to find themselves "broke" and wonder what "hit them." "Victims" who are not "broke" but are at present charged are as low as are consistent with a desire to survive in business and dress and feed our families as nearly as possible to the standard set by the hood-carriers and other learned "professional men."

## \$10 Invested in Yellow Taxi Cab Co. Stock May Bring You In \$300

The stock of the Yellow Taxi Cab Co. of Chicago sold on the stock market for \$300, and Chicago doesn't offer the same opportunities for taxi cab profit as Los Angeles. Here there is no snow or ice, no rough streets, no steep hills. Los Angeles is the ideal taxi cab city from the operating standpoint, to say nothing of the other advantages.

## We Want Everybody to Own Stock in The Yellow Taxi Cab Co of Los Angeles

Every stockholder will be a booster. The more boosters, the more business we will do. And think of it! Los Angeles has a larger floating population than the entire population of any other city where the Yellow Taxi Cab is successfully operating.

**Los Angeles Needs the Yellow Taxi Cab Service**  
Los Angeles is the only metropolitan city that has no taxi-meter service. The people here need it, they will use it, they ask now why we haven't started the service. Put your money in this public spirited enterprise. It offers the opportunity for a profitable investment.

## SOCIETY.

BY VIRGINIA WOODS.

Mrs. Holmes.

Mrs. Edwin Francis Holmes of Pasadena, who, with Col. Holmes, has spent the past year in San Francisco at the Fairmont Hotel, is a visitor here, domiciled at the Maryland Hotel, Pasadena, for a week. On Saturday evening she gave a dinner party at the Maryland and later motored over with a party of six to the Alexandria Hotel, where she gave a little supper and dancing party. She was looking particularly smart in a Paris gown of black chantilly lace and tulle, with which she wore a big Leghorn hat trimmed with pink roses.

### Dinner Parties.

This evening Dr. and Mrs. J. J. A. Van Kaathoven are to give a dinner party in honor of Mrs. Herbert Horstman, who is here from Holland visiting his sister, Mrs. Jack Niven, on Hobart Boulevard. This afternoon Mrs. Niven is giving a tea for Mrs. Horstman, and Mr. and Mrs. Harry Robinson, Beverly Hills plan to entertain at dinner in her honor. Mr. and Mrs. Sidney I. Walles were luncheon hosts on Sunday at the Los Angeles Country Club, the affair being in honor of the visitor.

### For Visitors.

As a courtesy to Mrs. Herman Behrens of Chicago and Miss Pauline Amos of Louisville, Mrs. Frank Ryan is entertaining at luncheon today at the Los Angeles Country Club. A big basket filled with summer blooms and tied with pink ribbon centers the table, at which there are fourteen guests.

### By Mrs. Churchill.

Mrs. Hooper Churchill (Constance Cline) is to be hostess on Friday afternoon at a tea at her new home in West Adams Gardens. There are to be seventy-five guests. A bevy of girls will assist her.

### Week-end House Party.

A very enjoyable week-end house party was that given by Mrs. Herman Janas at her log house at Big Bear. Among her guests were Mr. and Mrs. Harry Dana Lombard, Mr. and Mrs. Wellington Morse, Mr. William A. Innis and Miss Louise Innis. Mr. Janas is now on the ocean on his way to Europe, having sailed with Mr. William May Garland and Marshall and Jack Garland.

### At Del Monte.

Mrs. Arthur Lettis, Mr. and Mrs. Leonard Hayne and Leonard Hayne Jr., are enjoying an outing at Del Monte. Mr. and Mrs. A. B. Macbeth, Mr. and Mrs. O. E. Dutton, Mr. and Mrs. Paul English, Mr. and Mrs. Harold M. English and Mr. and Mrs. A. L. Cheney and Miss Catherine Cheney are there, and so are Mrs. Charles Rivers Drake of Long Beach and Mr. and Mrs. Carson Ricks of Pasadena. Mr. and Mrs. Ricks attended the Democratic National Convention in San Francisco previous to going to Del Monte.

### Tanner-Porter.

Miss Betty Tanner of Los Angeles and Bruce William Porter of Huntington Park were married at the home of the bride's parents, Mr. and Mrs. Charles Tanner of 740 South Rampart Boulevard. The bride wore a gown of white crepe de chine and her lace veil was arranged from a wreath of pink baby roses. Her bouquet was of pink roses and orange blossoms. She is popular in the younger set and belongs to the Phi Kappa Gamma Sorority. He is a young lawyer and is a member of the Delta Theta Phi Fraternity. After a motor trip through Southern California the couple will be at home on Rampart Boulevard.

### At Breakfast.

In honor of Mrs. E. H. Bickford, a visitor from Iowa, Misses Jean Leach and Henry Smith of Hollywood entertained a company of twenty-six at breakfast at the Garden Court tea room. Mr. and Mrs. Bickford are on their way home from the Shriners' convention at Portland and the Democratic National Convention at San Francisco.

### Mr. and Mrs. Richardson.

State Treasurer Friend W. Richardson and Mrs. Richardson, and sons Paul and John Albert, are in Long Beach, where she and the boys will be all summer. They motored down from Sacramento.

### Schellenbach-Reilly.

Miss Agnes Schellenbach of this city and Mr. George S. Reilly of Providence, R. I., were married July 7 at Guadalupe chapel by Rev. Father Lucey. She is the daughter of Mrs. Amelia Schellenbach of 1217 South Bonnie Brae street. A breakfast at the Los Angeles Country Club followed the ceremony. After a motor trip the couple will reside at Fullerton.

### Home Wedding.

At the home of her parents, Mr. and Mrs. C. G. Jochimsen, 2121 Park Grove avenue, Miss Helen Jochimsen and J. Wesley Iberg were married Saturday evening by Rev. Luther T. Reynolds of the West Adams Methodist Church. They left for a motor trip to the Yosemite Valley.

### Personals.

Mr. and Mrs. Harry T. Coffin and Misses Dorothy and Frances Coffin are enjoying an outing at Yosemite National Park and the fishing at Merced Park.

Mrs. Albert H. Dewitt left this morning for a motor trip in the Santa Cruz Mountains. Mrs. Tyler Tubbs Henshaw will leave the first of August for Ben Lomond, in the Santa Cruz mountains, to visit her mother-in-law, Mrs. Grace P. Henshaw, and will also join Mrs. Dewitt.

Mr. and Mrs. George F. Harris and daughter, Miss Elizabeth Harris, of Hollywood, are sailing tomorrow for the Hawaiian Islands to spend the summer. Mr. and Mrs. Harris returned last week from a trip through the East.

Mr. and Mrs. Clem Glass and children are at Forest Home in the San Bernardino mountains for a month.

Mrs. W. R. Strong and daughters, Misses Harriett and Nelle de Luce Strong, are at Del Mar for the summer.

Mr. and Mrs. Sidney I. Walles and small daughter are leaving shortly for Coronado and later will go to Catalina.

Mr. and Mrs. Z. D. Mathews of 1725 Fifth avenue have had as guests the past week Miss Mary and Mrs. Mr. and Mrs. George W. Mathews of Savannah, Ga., who are leaving this morning for their home. He is one of the officials in the Merchants' Miner Steamship Company of Savannah.

# ANNOUNCING a change in name

The Baumgardt Publishing Company will henceforth be known as the Fletcher Ford Company. The name only is changed; the personnel of the organization remains the same.

We feel that it is not out of place at this time to refer in a brief way to the growth of this institution. This company was established 25 years ago by B.R. Baumgardt, the well known lecturer, traveler and scientist, fathered with a definite conviction of rendering faithful painstaking service. We take pride in the fact that we are still serving many patrons who intrusted us with their printing a quarter of a century ago.

Keeping pace with the growth of Los Angeles this institution has developed into one of the finest printing establishments in Western America. Fletcher Ford, the president and general manager, since the retirement of Mr. Baumgardt, has been associated with the business for 23 years and will continue to direct its activities.

We invite our patrons and all others who are interested in modern printing methods to visit our plant.

## MORE PUPILS FOR SCHOOLS.

Enrollment at Pasadena Shows City's Growth.

Hold Private Funeral for Noted Naval Officer.

Food Infected; Chickens Con-  
tract Diphtheria.

PARADISE, July 12.—There are just 1400 more children in the Pasadena public schools this year than there were last, indicating the substantial growth of Pasadena during that period.

When the schools closed for the summer vacation the net enrollment was \$528, as compared with \$124 for the previous school year.

School officials predict still further increases in the enrollment with the beginning of the fall term. Eight bungalows will be erected this summer as auxiliary schoolhouses.

Many schools were badly crowded the past year.

**NAVY HERO'S FUNERAL.**

Capt. W. G. Cutler, for whom private funeral services were held today afternoon, had a distinguished career as an officer of the United States Navy. He was in the Navy since he was 17 years old and was a member of the American naval officers, commanding the Galveston, in the American Revolution which went to France fifteen years ago to bring back the body of John Paul Jones, who was buried a century previous in Paris. The French government decorated him. Admiral Sigbee and the other commanders as officers of the Legion of Honor. In the war with Germany he was naval superintendent of New York Harbor for a year and for a year was commander of the naval base in the Bermuda. He retired from active service sixteen months ago and came to Pasadena to live. Capt. Cutler died a few days ago from injuries received in an automobile accident. The funeral at 5 o'clock this afternoon was at the home of his daughter, Mrs. Desaix Ayers, 688 La Loma Road. The body will be cremated and the ashes buried in Arlington National Cemetery, near Washington. Mrs. Cutler, the widow; one daughter, Mrs. Myers, and two sons, Clifford and Harold Cutler of Boston, survive Capt. Cutler.

**CHICKENS WITH DIPHTHERIA.**

Chickens belonging to a Pasadena household whose members were ill with diphtheria contracted the disease from scraps fed them from the house, and died, according to Dr. J. Severy Hibben, Pasadena health officer, today. He would not divulge the name of the family, but insists there is no doubt but that the chickens had diphtheria. This probably will be new to many people, who did not know chickens were subject to such an ailment. Dr. Hibben mentioned the incident while talking today on the dangers of infecting animals and poultry, which is one of the reasons he is now advocating regulation of goat dairies by the health department. He has proposed an amendment to local ordinances to this end.

**JUST LIKE THE MOVIES.**

RIVERSIDE, July 12.—Fires which have menaced the grain fields of the valleys to the east and south-east of this city for the last forty-eight hours are now all under control. March Field observers, by efficient signaling, and March Field cadets, by assisting the ranchers and other fire-fighting forces from this city, have rendered invaluable service in the saving of grain fields. Twenty tons of barley and seventy-five acres of brush were burned in the fire which broke out near Peris yesterday afternoon.

## HEAVY SEAS CAUSE DAMAGE AT BEACH.

THOUSANDS WITNESS HIGH ROLLING BREAKERS—OTHER NEWS NOTES.

(EXCLUSIVE DISPATCH.)  
LONG BEACH, July 12.—Thousands thronged the water front tonight to enjoy the spectacle of crashing breakers, flying spray and waves overrunning the promenade along Seaside Boulevard as a seven-foot tide backed by a heavy ground swell threatened further damage to the municipal pier at the foot of Pine avenue and to concessions and various other structures along the beach. Throughout today the waves swept along just under the lower deck of the pier, tearing planks loose and both upper and lower decks of the structure have been closed, probably to remain so through the entire week. Tomorrow night's high tide will be seven feet four inches, Wednesday and Thursday nights will be seven feet six inches, Friday seven feet three, and Saturday six feet nine. Numerous piling under the Pine-avenue Pier were wrenched loose early today. The ground swells make it impossible for fishing boats and pleasure launches to dock at the pier and several are receiving and discharging passengers at landings in the local harbor.

## CITY REFUSES TO PAY FEDERAL WAR TAXES.

(LOCAL CORRESPONDENCE.)  
LOS ANGELES HARBOR, July 12.—The Internal Revenue Department's claim for war tax on the receipts of the Fairmount Park plunge will be resisted by the Board of Park Commissioners, that body this morning deciding that the department bases its claim on admission charges. The board contends that the charges are for rentals only, these being for the use of the bathing suits and dressing-rooms. The deputy revenue officer's statement calls for a payment of nearly \$700, covering taxes, penalties and interest for the year ending April 30 last.

## NEW INDUSTRY.

(LOCAL CORRESPONDENCE.)  
LOS ANGELES HARBOR, July 12.—Building permits totaling more than \$50,000 were taken out today at the local building inspector's office by the Vegetable Oil Products Company. This concern is to build the first unit in its factory for producing vegetable oil. The plant will be at the foot of Canal street.

## UNUSUAL ACCIDENT.

(LOCAL CORRESPONDENCE.)  
LOS ANGELES HARBOR, July 12.—Clarus Hall, a garage employee, lies in a critical condition at a local hospital from the effect of an unusual accident. While pumping up a tire, the tire blew out and the rim flew off cutting a deep gash in the young man's head.

## GODS OF GODS COMING.

(LOCAL CORRESPONDENCE.)  
LOS ANGELES HARBOR, July 12.—More than 800 midshipmen on board battleships now at Honolulu will arrive at Los Angeles Harbor about August 7, according to an announcement made today by Lieut. J. J. Monahan.

The battleship squadron left Annapolis June 5 for the annual midshipmen's cruise.

## WILD MOUNTAIN RIDE.

School Superintendent W. L. Stephens, Attorney Clyde Doyle, Julius Blum, a bank cashier; Franking Robinson, apartment-house owner, and William Koller, business secretary for the American Legion here, narrowly escaped serious injury last evening when, while coming down the Mt. Wilson trail in Doyle's auto, which had broken down, the two motor cars crashed and Doyle's car burst into flames. The tow line gave way and Doyle only stopped his runaway car by driving it into the mountain side. During the wild ride, Blum, Robinson and Doyle were thrown about the running board of the runaway auto and jumped. Blum suffered a sprained right arm, a broken leg and a wound on his forehead. The others escaped without injuries as did Doyle and Koller, who remained in the automobile.

the officers, said they would not allow their pal to be taken into custody. In the melee that followed, the sailors were subdued and at the City Jail where all three are being detained, a physician dressed the wounds of Wing, who is alleged to have "figured up" on alcohol and "C.O.C." was sentenced to 25 or 35 days. The others will be arraigned on charges of interfering with an officer.

### SPORTS MOTORING FILM AND DRAMA

#### GRUNAN MEETS ROBINSON AGAIN

He's Up Among the Four Hundred.

Loses Two Fights, but Thinks  
He Can Beat Rough Willie.

Young France and Richards in  
Other Half of Main Go.

Godevils Goozeman and Kid  
Mende to Battle.

It takes a lot of argument to  
convince this guy. Grunan. After  
twice taking grueling punishment at  
the hands of one Willie Robinson he  
is coming back for more at Vernon  
met Robinson scored a technical  
knockout. The second bout was a  
slasher; the bell in the fourth round  
saved Grunan from going to the  
floor. He was really out on his feet.  
Godevils was waving madly at the  
timekeeper to stop the proceedings,  
but this gink had his eyes on the  
great fracas. Still, Grunan thinks  
he can lick Robinson. Which makes  
things all the more interesting. May-  
be he can.

FRANCE AGAIN.

Matchmaker Wad Wadhams has  
carded a Young France-Tommy  
Richards go, which is to share hon-  
ors with the Grunan-Robinson mix-  
up as the main event. This difference  
lies chiefly in the speed and the  
character of the hitting. Not only  
do the men hustle more on the  
bases and in the field, but they are  
continually prodded up by the im-  
pulse in taking the lead or in com-  
ing to the plate. Then, if  
would say, the men average from one  
to two strikes straight bats in the  
subsequent batters.

HEADS UP!

This speed and fact that they  
must hold their heads up to hold  
their bats, enables them to take an  
extra base on the slightest faux pas  
by the pitcher. This is a very dan-  
gerous ground ball for the pitcher  
of a second, and the runner bears  
down on the next base with the  
speed, and often makes it. The  
result is flash after flash of brilliant  
and almost blinding action. It is  
able to gauge this speed somewhat  
by the difference in scoring. One  
must be more attentive to the game  
in the majors or he is liable to lose  
a play entirely, for the unexpected  
predominates.

MECHANICALLY PERFECT.

Mechanically, baseball probably is  
as perfect in the minors, now or  
at least the larger ones, and frequently  
more smooth, because as great  
chances are not taken. I can best  
describe major league baseball as  
both better and worse than minor.  
Having, if anything, has the edge  
on the pitcher, the manager can-  
not wait in the hope that he may  
come back in the next round. Owing  
to the severity of last night's  
game under these conditions fre-  
quently is won and lost in a very  
few minutes, and sometimes it seems  
in the space of seconds. Tremendous  
scores are piled up, and it is at such  
times that major league ball looks  
worse than minor.

BETTER ARMS, OF COURSE, are the  
rule. This is especially true of the  
outfielders. A weak whip can no  
longer hold its own.

(Continued on Third Page.)

#### BOBBIE JONES BUSTS RECORD.

(BY A. P. NIGHT WIRE.)

MEMPHIS, July 12.—Bobbie  
Jones, Atlanta youth, and the  
southern team—Jones,  
Thomas Prescott and Perry  
Adair, both of Atlanta, and  
Pellack Boyd of Chattanooga—  
won honors in the opening  
round today of the western  
amateur golf tournament.

Jones smashed the course  
record with a 69 for the eight-  
een holes, one better than the  
previous professional record  
and two better than the amate-  
ur mark. The southern  
team won the Olympic cup,  
the Western Association's  
medal play trophy, with 229.  
The St. Louis district team  
was second, three strokes be-  
hind, and the Indiana Golf  
Association, of which team  
"Chick" Evans is a member,  
was third with 321.

outer edge of the deck and only  
two inches off the surface.

A TALL ONE.

Gazing up at the main mast makes  
the mouth perforce drop open from  
amazement. "It's 110 feet tall, that  
stick," said Sailor Short, a  
fourteen-foot top of mast on top  
of the ship.

Mr. Short was questioned as to  
the rumor that Sir Thomas was go-  
ing to pension each member of his  
crew for life, whether they won or  
not. "Well, I've heard some talk of  
that, but it's most been from re-  
porters."

Short did admit that if they  
each man will likely get a bonus of  
\$150. Their pay is only that of the  
British merchant marine, while the  
Resolute's crew gets considerable  
more than the average sailor.

The American salary is said to be  
about \$105 per month with a bonus  
of \$5 for every race and every start  
and \$10 bonus for winning. The  
officers get yearly salaries and per-  
centage bonuses. Ten dollars was  
the bonus paid Resolute sailors for  
winning the race from the Vanitie  
in the elimination trials of Newport.  
Very likely their bonus for a vic-  
tory over the Shamrock would be  
higher than this figure. Their  
weekly average while in the trial  
races was around \$100 per man.

FISHERMEN STAGE  
ANNUAL OUTING.

The Southern California Rod and  
Reel Club has decided to hold its  
regular annual outing in conjunc-  
tion with the Los Angeles Fly and  
Bait Casting Club next Sunday, July  
18, at Hermosa Beach, and quite a  
number of members of both clubs  
are expected to participate in the  
casting tournament.

The summer program of the Fly  
and Bait Casting Club, promises to  
be exciting, as several of the beach  
towns have asked the local club to  
give exhibition tournaments, the  
following dates have been arranged:  
Hermosa Beach, July 18, Hunting-  
ton Beach, August 8, Oceanside,  
August 22, and at some later date  
in October, the meet will be held  
at Leigh Gurnsey's Trout Farm.

With acknowledgment to K. C. B.

#### GRUNAN MEETS ROBINSON AGAIN

He's Up Among the Four Hundred.

Loses Two Fights, but Thinks  
He Can Beat Rough Willie.

Young France and Richards in  
Other Half of Main Go.

Godevils Goozeman and Kid  
Mende to Battle.

It takes a lot of argument to  
convince this guy. Grunan. After  
twice taking grueling punishment at  
the hands of one Willie Robinson he  
is coming back for more at Vernon  
met Robinson scored a technical  
knockout. The second bout was a  
slasher; the bell in the fourth round  
saved Grunan from going to the  
floor. He was really out on his feet.  
Godevils was waving madly at the  
timekeeper to stop the proceedings,  
but this gink had his eyes on the  
great fracas. Still, Grunan thinks  
he can lick Robinson. Which makes  
things all the more interesting. May-  
be he can.

FRANCE AGAIN.

Matchmaker Wad Wadhams has  
carded a Young France-Tommy  
Richards go, which is to share hon-  
ors with the Grunan-Robinson mix-  
up as the main event. This difference  
lies chiefly in the speed and the  
character of the hitting. Not only  
do the men hustle more on the  
bases and in the field, but they are  
continually prodded up by the im-  
pulse in taking the lead or in com-  
ing to the plate. Then, if  
would say, the men average from one  
to two strikes straight bats in the  
subsequent batters.

HEADS UP!

This speed and fact that they  
must hold their heads up to hold  
their bats, enables them to take an  
extra base on the slightest faux pas  
by the pitcher. This is a very dan-  
gerous ground ball for the pitcher  
of a second, and the runner bears  
down on the next base with the  
speed, and often makes it. The  
result is flash after flash of brilliant  
and almost blinding action. It is  
able to gauge this speed somewhat  
by the difference in scoring. One  
must be more attentive to the game  
in the majors or he is liable to lose  
a play entirely, for the unexpected  
predominates.

MECHANICALLY PERFECT.

Mechanically, baseball probably is  
as perfect in the minors, now or  
at least the larger ones, and frequently  
more smooth, because as great  
chances are not taken. I can best  
describe major league baseball as  
both better and worse than minor.  
Having, if anything, has the edge  
on the pitcher, the manager can-  
not wait in the hope that he may  
come back in the next round. Owing  
to the severity of last night's  
game under these conditions fre-  
quently is won and lost in a very  
few minutes, and sometimes it seems  
in the space of seconds. Tremendous  
scores are piled up, and it is at such  
times that major league ball looks  
worse than minor.

BETTER ARMS, OF COURSE, are the  
rule. This is especially true of the  
outfielders. A weak whip can no  
longer hold its own.

## EAST PEDDLES PADDOCK YARN.

Kirksey Races U.S.C. Man for Rent of House.

Results 'Are Missing From Accounts of Meet.

Judge Bill Himrod Talks for Publication.

BY PAUL LOWRY.

They're peddling an athletic yarn in the East that will be of considerable interest to Southern Californians. It has to do with the Paddock-Kirksey sprinting feud.

Charles Paddock, speed phenom of the University of Southern California, is according to the eastern story a young person of much wealth and owns the bungalow in which Morris Kirksey of Stanford University makes his home at Eagle Rock.

Before the American Legion meet at Brooklyn on Saturday, Landlord Paddock made Tenant Kirksey a proposition. He informed the Stanford cinder runner that a victory over his lessor meant a year's free rent.

But something happened to spoil this mythical dream of the eastern scribes. Kirksey didn't race. Paddock did. Incidentally he equaled the world's record for the 100-meter dash. The question is, where would Mr. Kirksey have been had he entered the frolic?

The result of the dash demonstrated one thing quite conclusively. That is, that the U.S.C. speed hound has nothing to fear from any man in the world. Many have had, and may still have, the opinion that Kirksey can beat Paddock in the 100-yard dash.

Dean Cromwell, trainer of Paddock, is one of those who believes that Kirksey never will see the day when he can beat the U.S.C. boy. Dean is not alone in his convictions, either. For one thing the odds are against Kirksey. He is 25 years of age. Paddock is 20. Kirksey's day as a sprinter is about done. Paddock's best days lie ahead.

Northern scribes have worked themselves up to a high pitch over what they term the unfair treatment accorded Kirksey at the Pasadena Olympic trials. Viewing the 100-yard dash, 500 miles away, they believe Kirksey should have been awarded a dead heat with Paddock.

The Stanford man undoubtedly made a wonderful race in the last twenty-five yards, and snatched second place from Spoke Williams, but he did not lead Paddock at any stage. The judges said he finished a foot to the rear of Paddock. But listen to what Bill Himrod, who picked first man that day, says:

"There was never any question in my mind as to who won the race. It was simply a matter of how far Kirksey finished in the rear. It was nearer two feet than one foot."

HOME RUN BY EDDIE COLLINS DOES WORK.

(BY A. P. NIGHT WIRE.)

PHILADELPHIA, July 12.—Ed Collins' home run scored the only tally of today's game, which Chicago won 1 to 0. Three scratch hits were all the locals could get off Kerr.

# Portage

ALL OVERSIZE  
Tires

THE PORTAGE PATH, which passes through the great rubber city of Akron, was once a rude trail over which Indians and trapper guides portaged the canoes and baggage of the early settlers as they journeyed from Lake Erie to the Ohio River.

For many years this trail—the Cuyahoga-Tuscarawas Portage—formed the boundary between warring Indian tribes, serving as a neutral strip upon which hostilities were suspended. It was here that Gen. Moses Cleaveland, the founder of the city of Cleveland, set a cornerstone to mark the Western boundary of the United States. By the "Ordinance of 1787" this Portage Path was declared to be a highway "forever free" between the North and the South.

The boundary of the United States is shifted far to the west; the trappers and Indians have gone; the once modest Portage Path is now a broad motor highway. The automobile has replaced the canoe; in place of men have come pneumatic tires to fill the role of "carriers" in modern locomotion.

TEN years ago the first Portage Tires were built in a little factory that faced the historic Portage Path. That small factory has grown and expanded to huge proportions because of the big-mileage performance and rugged merit of the tire.

A notable Portage Tire advantage is the soft and pliant but very tough and long-wearing black tread. Flint-like roads grind the life out of ordinary tire treads. But the yielding quality of the PORTAGE tread enables it to withstand abrasion to the utmost. This yielding quality—plus the scientifically correct Skidlock tread pattern—insures big mileage, easy-riding comfort and skid protection on city streets or country roads.

They get you there—and back!

## ELECTRICITY WILL BE YOUR ICE-MAN

The joy and convenience that Kelvinator, the automatic ice-man operating by electricity, means to you is only offset by the big saving in time, labor and expense.

Kelvinator, the mechanical substitute for ice, fits snugly into the ice compartment of any standard home refrigerator without mutilating it and does not lessen the capacity of your ice-box.

The "200 pounds capacity" of dry cold is constantly maintained by Kelvinator.

## Kelvinator Refrigerates Without Ice

Kelvinator makes pure cubes of ice for your drinking water, and the even dry temperature prevents food decay.

Kelvinator is quickly installed. It will mean a great saving in your housework. Come see Kelvinator demonstrated in our showrooms today.

## HUSTLING PUTS MAJORS ON TOP.

(Continued from First Page.)

more get by up here than flat feet can in the Marine. Distance, speed and accuracy are attained in an almost unbelievable degree. In view of the reckless use of the arm up here, it is no wonder that so many men come back to the minors with a "dead" whip. The only wonder is that something doesn't "snap" off-ener.

Fluke or "soaped" hits are also less common here than in the minors. The reason for this is not difficult to analyze. The big league player, does not as a rule, swing at bad balls, while the pitcher has good control. If he is right. As a result, the ball, as a rule, is hit solidly. If it is hit at all, and seldom flicked off the end or handle of the bat. Of course, the big league player never will be eliminated from the great national pastime until they produce a perfect playing surface, but a majority of the hits on big time are clean and sharp and mighty good to look at.

The writer formerly made the common error of judging a major league team to a certain extent by the games in the spring. Most of us, it is true, made allowances for the fact that they were still in the tender training period, but these allowances as a rule are not great enough. There is hardly any resemblance between a big league club in spring exhibitions and the same club in July. By that time everything has become all dash, snap and speed with the men lean and hollow-cheeked and reduced to sheer bone and muscle. With reasonable luck a good minor league team every day in the week. But, of course, there are a number of inferior teams in the minors, and to my way of thinking, at least two of them would have a tough time getting by in the majors. The team winning the championship on the Coast, wouldn't finish last in the American.

At this time there appears to be nothing in sight capable of stopping that Yankee juggernaut. Now the Yankee, from the standpoint of fine balance, do not look like the best team in the world as baseball machines have been appraised in the past, but they look capable of beating any club in the world. There has never been anything quite like them in baseball. They really have more speed than some think, but from what I have seen of them, they could get along without any speed at all. No club seems able to stand before their sheer driving power. The pitching staff has looked very inferior at times. But it is better than its work indicates. The heaveys were so sure that regardless of what happened, the wrecking crew would provide the necessary runs they became inexcusably slovenly in their work.

But it is the reserve strength of the Yankees which would appear to make them irresistible by fortifying them against the unkind flings of fortune.

Duffy Lewis has been out for the better part of a month. This would be a severe blow to any other club. At other times, Ruth, Ward, Pipp, Meusel and Fawcett have been out of the line-up from one cause or another. Yet they haven't been reduced to a point where it was necessary to call on a player of the class of Lefty O'Doul, who probably would be playing regularly with any other club in the country. Ward is a wonder at third, short or second. Meusel is equally at home at third, first or in the outfield. Fawcett is a wonder, and can play any of three points in the infield. Ruth can go in and pitch top-notch ball if necessary.

## PENNANT RACE IS HALF OVER.

(Continued from First Page.)

for Killefer this year, and it figures to do so. Johnny Bassler's willow must not be overlooked. Johnny is having the best year of his career and unless all signs fail should be the catcher par excellence of the league by the time the idea of October creep around.

TIGERS LOOK GOOD.

According to our way of thinking Vernon is the club the others will have to beat to cop the gongalon. On form the club bodies up as about one of the strongest minor league organizations ever gotten together. The twirling staff is a corker and will be made more formidable when Art Fromme gets back into the line-up, shooting him to the mound once a week makes Art dangerous against any team. The Tigers' weak link is the catching department. They are minus a reliable receiver for De Vorme, but Eddie Maier expects to have a high-class backstop by the time the Benjamins return here next week and then Vernon fans should begin to grow cocky.

San Francisco just now is like a good horse that has been knocked out of its stride in a race. The Seals have lost a good many lengths in the last month or so and will have to whip up mighty fast to get back into a contending position. The defection of Phil Koerner was a body blow to Charley Grann. Phil ran up with Joe Slump for a long time and I began to feel that he was all in, but we still think he has a few bingles in that sturdy old right arm of his and should like to see him get back in his old station at first with the Seals.

HAVE LOT OF PEP.

Portland has been hovering around the 500 mark for some time. The Beavers have a lot of pep and several reliable heaveys but appear to lack the kick in the biffing line. According to all calculations they should hardly hope to finish in the first division. If they do it will probably be consequent of an awful lapse of the Seals and we hardly look for this season to show the kind of game they are really capable of performing. The team has a good lot of sticking ability and a fair pitching staff but Clyde Vares appears to be handicapped with several recalcitrant muckers who are hardly giving him the best that is in them. With the bunch of ball talent that he has surrounded himself with he should easily, from now on, keep out of the cellar and by the same token make life miserable now and then for some of them leading teams.

BILL IS BOSS.

Oakland and Sacramento can hardly hope to do any better than they are doing now, unless the teams are strengthened. Much credit is due Bill Rodgers for taking the bit in his mouth and showing a few of his Bolshevik players that he was the boss. He turned out the malcontents and while he may not be doing so well as he did in the early part of the season he has the satisfaction of knowing that his team is working harmoniously together and that he is a real boss.

Giving to the inability of the Oaklanders to get here until tomorrow from Seattle, Washington Park will be idle today. At 2:30 o'clock tomorrow afternoon, however, the Angels and the Oaks will hook up in the first of their seven-game series and may the better man win.

## Some men still think that How wrong they are! \$25 will not buy a good sound suit of clothes

### Here's Where We Go to Bat With Old Man Habit!

Just because you've seen prices climb up month after month—until they finally tumbled—don't take it for granted that they've tumbled far enough.

The moment you feel SATISFIED with prices "specially reduced" to \$40, \$50 or \$60—they'll not come down a dollar lower! The only way to bring them back where they belong is—shake the High Price Habit.

DON'T listen to high prices—  
DON'T think high prices—  
DON'T talk high prices—  
GET the high price habit clean out of your system!

Just say to yourself, "Perhaps I CAN buy a good suit of clothes for \$25, \$30 or \$35. At least, I'll investigate!" Then give us half a chance to prove it!

Inspect a few of our 3000 suits priced at \$25, note our five common-sense business principles, learn about our \$10,000,000 guarantee of satisfaction and you'll not be surprised at the following figures:

### In Our Los Angeles Store Alone

On Monday We sold 76 suits at \$25  
On Tuesday we sold 61 suits at \$25  
On Wednesday we sold 67 suits at \$25  
On Thursday we sold 82 suits at \$25  
On Friday we sold 54 suits at \$25  
On Saturday we sold 141 suits at \$25

or a total of 481 suits at \$25 in one week (not to mention the thousands of suits sold at \$20, \$30 and \$35)!

Figures compiled from week June 14 to 19.

And every one of those \$25 suits was all-wool, carefully tailored, cleverly styled and backed by our \$10,000,000 guarantee. The 481 men who bought them will be thoroughly, entirely SATISFIED!

## TRADE UPSTAIRS & SAVE \$10

That's Our Slogan, But \$15 to \$20 Is Usually Your Saving!

For a long time they've all been telling you that you must pay MORE—pay MORE—pay MORE—to get a suit of clothes worth having. And maybe you've believed 'em. Now we say—pay LESS—and it ought to be a lot EASIER to believe!

Have they showed you honest reasons for their sky-high prices? Have they abided their profits to your satisfaction? No—you know it!

Now we ask you frankly to READ the five open-faced, common-sense REASONS for our LOW PRICES. Read them twice. Let them jolt your mind out of the High-Price Habit. Let them prove to you the Why of our guaranteed SAVINGS. Then remember—hundreds of thousands of men all over the country have found out just the things we're telling you! Will you be fair enough to yourself and your bank account to INVESTIGATE—to SEE what \$25, \$30 or \$35 will buy in a suit of guaranteed F. & C. clothes?

## SPECIAL NOTICE TO CADILLAC OWNERS Regarding Gasoline Shortage

A series of experiments were conducted yesterday to determine a method by which Cadillac owners can meet the emergency of a gasoline shortage. As a result of these tests we are pleased to announce to all Cadillac owners that should an emergency arise they can operate successfully with

### THREE PARTS KEROSENE TO ONE OF GASOLINE

This mixture is especially effective on the latest model on account of the heated intake manifold.

The only adjustment necessary is to screw the air adjustment on the carburetor to the right three-quarters to one turn. The engine will start immediately on this mixture if warm. For starting when cold prime pet cocks with gasoline.

We recommend this as an emergency measure when caught on the road or when a long trip is intended and the supply of gasoline is not sufficient.

## DAILY TRADE TALK.

## Gas Shortage Slows Business; Stocks are Weak; Reserve Bank Report.

BY CHAPIN HALL.

The gasoline shortage had a bad effect on business yesterday. In the financial markets there was a feeling of irritation over the shortage of gas. The market was weak and the Reserve Bank report was not encouraging.

In spite of the scarcity and the increase in price, oil stocks were inactive and quotations were low. The situation is difficult for the public to understand and most of the sufferers are inclined to place the blame upon the distributors.

Hotels are filled with auto tourists who do not dare take a chance with the uncertainties of the road, and auto dealers are up in arms because of the possibilities involved in a long drought. Reports of plenty of gas from Arizona and other States farther East do not add complacency to the situation.

The Standard Oil Company announced an increase in current prices offered for crude oil at the well of 12 cents per barrel over the former price which was established March 17. The new table reads like this for the San Joaquin and Whittier-Fullerton fields:

Field	12 deg. and including 12 deg. gravity	Per barrel
San Joaquin	12 deg. and including 12 deg. gravity	1.00
Whittier-Fullerton	12 deg. and including 12 deg. gravity	1.00

FEDERAL RESERVE REPORT.  
The comparative statement of condition at the close of business July 9 of the Twelfth Federal Reserve Bank of which Los Angeles is a branch was made public yesterday revealing the following summary:

Gold reserve \$111,369,000 against \$110,200,000 for the preceding week.  
Total reserve, \$112,127,000 against \$111,369,000.  
Bills discounted, war paper, \$48,567,000 against \$50,049,000.  
All other discounts, \$103,290,000 against \$101,000,000.  
Bills bought in open market, \$46,146,000 against \$44,851,000.  
Total earnings assets, \$212,965,000 against \$209,100,000.  
Total resources, \$426,617,000 against \$423,273,000.  
Federal Reserve notes, \$244,969,000 against \$241,461,000.  
Discount rate unchanged.

BOND MARKET.  
Dealers anticipate an improvement in the market soon. Funds are gradually finding their way back to this channel, and while the pick up was not quite so rapid following the July 1 disbursements as many had anticipated it is gathering force and the outlook is encouraging.

In the general business situation there is still some groping. The question of production of some commodities and the reduction of working hours in others, notably shoe and woolen factories has not been fully worked out. In the meantime the local trade is buying carefully and conservatively.

MONNETTE COMPLETES TOUR.  
Orra E. Monnette returned yesterday from an interesting eastern trip covering a vacation period of thirty days. Mr. Monnette, who is President of the Citizens' Trust and Savings Bank, was accompanied by Mrs. Monnette, and during a month crowded with pleasant experiences attended the twenty-five-year reunion of his class at Ohio Wesleyan University where he made the alumni address and also spoke at a luncheon attended by 1100 returned graduates. Old home towns were visited through Ohio and Pennsylvania followed by a trip over the Great Lakes. At Minneapolis he visited the national convention of the Grand Arch Council, Phi Kappa Psi fraternity of which the Los Angeles banker is a former national secretary and national president. He addressed this convention, returning to the home port via Butte, Mont., and Salt Lake City.

LOS ANGELES STOCKS.  
The week opened with a weak market and trading light. Teller and Tom Reed mines were the leaders, the former opening at 45 cents and selling down to 44 cents; the latter opening at \$1.02 1/2 and selling up to \$1.03. Oils and industrials were in light demand at prices somewhat below the close last week.

## PRICE TREND UPWARD ON PRODUCE MARKET.

WATERMELONS ARE HIGHER; ALL VARIETIES OF BERRIES ADVANCE.

Trading was very active on the local produce market yesterday, and under pressure of heavy buying the general trend of prices was upward. Opening prices were steady at the level of Saturday's closing, but during the day a number of commodities advanced, notably watermelons, berries, and all varieties of berries.

Watermelons were in demand, and all varieties of berries advanced. The market was active and prices were generally higher than the previous day.

## Bond Market

BY C. F. SEIDEL.

Bond Department, Los Angeles Trust and Savings Bank.

There was a man in the early days of California who refused to heed the beckoning finger of wealth when he pointed to bountiful deposits of gold and oil. He aspired to create the greatest live stock and agricultural organization in the world. How he realized his dream is today shown by the land holdings of the organization that bears his name and that of his partner. It owns 800,000 acres of land in California and 200,000 acres in Oregon, Nevada, Utah and Idaho.

That man was Henry Miller. The romance surrounding Miller and his partner, the late Charles W. Lux, is now the public eye due to the fact that Miller & Lux, Inc., the present day organization—begun by these two poor boys about 1887—has been authorized to issue \$12,000,000 First Mortgage 7 percent ten-year Gold Bonds. The Los Angeles Trust and Savings Bank has these bonds for sale at 100 and interest, yielding 7 percent. The investment opportunity offered is shown by the fact that the million acres owned, directly and indirectly, by Miller & Lux, Inc., the concern possesses combined the following personal property: 160,000 sheep; 20,000 hogs; and 9,500 horses. The bonds are secured by all of the above real and personal property, conservatively valued at from fifty to sixty million dollars.

An article in the World's Work of 1908, by French Strother, under the title "Pastoral Dictator at Eighty-three," described Henry Miller. Miller came to the United States when sixteen years of age. He eventually drifted west from New York and California when he was 21. He rose from a butcher boy in a small retail butcher business with the late Charles W. Lux. The firm name of Miller & Lux was used in the incorporation when the partners branched out in the cattle business. This led to the origin of the grazing enterprise.

It became a proverb in California, according to Strother, that the Miller & Lux cattle from Mexico to San Francisco and camp them on their own land.

"This is an exaggeration," Strother said, "but a conservative estimate for the article by a director of the estate credited it with 100,000 acres in California alone. Miller also acquired lands in Nevada and Arizona."

A large share of the Miller & Lux lands and cattle depended on the San Joaquin River for water supply. Miller, therefore, took out in the days a great many patents to "allotments" of so many miles' inches for diversions of water from the stream, so that, as Strother expressed it, "he practically owned the entire flow of one of the largest rivers in the State."

"He has reduced his business to a smoothly working organization," Strother continued, "with a central office in San Francisco in charge of much less; his time is filled with the labor of keeping his affairs in order and with brief visits to his home in Gilroy, California."

The bonds issued by Miller & Lux, Inc., offer an excellent field to investors. The writer invites further discussion. If you cannot come to the Bond Department of The Los Angeles Trust and Savings Bank, write or come for a circular containing further information regarding these bonds.

## NEW YORK STOCK EXCHANGE FINANCIAL AND TRADE REVIEW.

[BY A. P. NIGHT WIRE.]

NEW YORK, July 12.—The week on the stock exchange began with reactionary price movements which optimism of traders in connection with the latest financial and industrial developments.

Advices dealing with the steel and iron industry were once more disconcerting because of the increased freight collection and consequent fuel shortage. Many special stocks, such as textiles, leathers and rubbers, denoted the unsettled trend in these and kindred lines of business.

As a group, rails were stronger and more prominent than recently, but buying of that division, which has been extended to secondary shares, appeared to be little more than a screen for liquidation of less favored issues.

Oil, especially Mexican and Texas stocks, motors, popular steel, equities and shipbuilding comprised the weaker issues, losing two to eight points. Treasury was pronounced in the final hour when shorts were most aggressive. Sales were 775,000 shares.

The money market was under careful scrutiny as a result of last Friday's 10 per cent rate for call money and the heavy shrinkage of reserves reported by the clearinghouse. Today's opening rate of 8 per cent remained unchanged, any tendency towards ease being checked by relatively small offerings.

The foreign exchange market recorded no material alteration of rates to London or any other important quarter.

Trading in bonds was unusually light and within corresponding narrow limits. The trend, including Treasury issues, was lower. Total sales, (par value) were \$3,250,000. Old United States bonds were unchanged on call.

David Wark Griffith—producer and director of the world's greatest motion pictures—whose inventive genius has advanced motion pictures to an art—admittedly the largest single factor in the development of the industry—discoverer and developer of the most prominent screen favorites and stars—has incorporated the Griffith organization, of which he becomes President and Director in Chief.

## Class A Shares

D. W. GRIFFITH  
INCORPORATED

Capital Authorized and Presently to be Outstanding:  
125,000 Class A Shares, no par value 375,000 Class B Shares, no par value

From the letter of D. W. Griffith, President, dated June 28, 1920, and on file in our office, we summarize as follows:

**Purpose of Issue.**—The proceeds received by the Company from its sale of Class A Shares will be used as additional working capital required by its rapidly expanding business, under the direction of D. W. Griffith, who occupies a preeminent position in the industry, being known as the creator and producer of the world's greatest motion pictures, including "The Birth of a Nation," "Hearts of the World," "Broken Blossoms" and many others.

**Tangible Assets.**—Acquired by the Company will comprise the studio headquarters and equipment at Manhattan, N. Y., ownership of a large number of completed productions, and those in process, rights to future productions and contracts with distributing companies and with the prominent members of the Griffith organization.

The Company will also acquire a one-fifth interest in the United Artists Corporation, formed for the purpose of distributing star pictures of D. W. Griffith, Mary Pickford, Douglas Fairbanks and Charlie Chaplin, each of whom owns a one-fifth interest in the United Artists Corporation.

As shown by the audit of Price, Waterhouse & Co. and the appraisal of Coats & Burchard Co. and after giving effect to the present financing, but without consideration to value of contracts, equities in films etc., the Company's net tangible assets are \$2,944,032 or equal to over \$23.00 per share, and net current assets equal to over \$14.00 per share of Class A Stock.

In addition, the Company will carry insurance on the lives of D. W. Griffith and the principle members of the organization totaling \$1,000,000, payable to the Company as beneficiary.

**Earnings.**—The gross receipts from pictures produced by the Griffith organization during the past twenty-seven months, upon completion of their runs, are estimated to exceed \$9,000,000 and net earnings will approximate \$3,000,000. The management estimates that net earnings for the next 12 months, after Federal taxes, will exceed \$1,500,000, equal to over 8 times the Class A preferential dividend.

**Dividends.**—It is the intention of the Company to pay dividends of at least \$1.50 per share per annum on Class A stock commencing with the first semi-annual dividend on or about January 1, 1921.

## 4 Pointed Questions for July Investors

IS THIS a trouble-free investment, or is it one that will keep me watching its price in the financial pages by day and giving me sleepless moments by night?

Will it be paid in cash on the day due, without delays, or ifs, or buts?

Is it a direct first mortgage, coming ahead of all other obligations?

Is it founded on a fundamental necessity of life—a commodity or service for which the demand exceeds, and will continue to exceed, the supply?

The investor who purchases a first mortgage bond, safeguarded under the STRAUS PLAN, can answer all these questions with an unqualified "yes." You cannot afford to delay investigating the STRAUS PLAN, which has ended the worries of so many investors.

Write today for our booklet, "Safety and 6%," which explains our plan, and for the Straus Guide to Safe Investment, which describes a total of \$34,000,000 in first mortgage serial bonds, netting the safe interest rate of 6%, with 4% Federal Income Tax paid. Ask for

## ARMOUR & COMPANY

7% 10-Year Convertible Gold Notes  
Dated July 15, 1920 Due July 15, 1930

Organized more than fifty years ago, Armour & Company has today 400 branches throughout the United States engaged in the packing business, with plants in Brazil and Argentina, and assets of \$490,000,000.

The only lien against the property is a mortgage of \$50,000,000 upon part of the property only. Net current assets, including this issue, will be approximately \$230,000,000.

It is stipulated that no mortgage shall be placed upon the property unless these notes are secured equally with it. The current assets must be maintained equal to one and one-half times the current liabilities including these notes and any others at any time outstanding.

During the last four years, average annual earnings available for interest charges, after Federal Taxes, have been approximately \$26,000,000, not including \$6,000,000 from South American subsidiaries.

Annual average interest charges have been approximately \$7,540,000. As indicative of the conservative policy of the business, during this period more than \$85,000,000 out of net earnings has been retained in the business and cash dividends have been paid amounting to less than \$9,000,000.

Callable at 105 and interest on sixty days' notice. Interest payable without deduction for Federal Income Tax, not in excess of 2%. Convertible, par for par, on January 3, 1921, or at any time thereafter prior to maturity or redemption, to class "A" common stock.

British Columbia is the third in size of the Province of Canada, and has an area exceeding 227,200,000 acres. The natural resources of the Province make it one of the wealthiest in the Dominion, the forests alone covering an area of about 180,000,000 acres. The great progress which is being made in the development and production of the Province is seen in comparing the value of the total production in 1911, which amounted to \$53,037,280, with that of 1919 amounting to \$253,901,367.

British Columbia is the fourth Province as regards value of manufactured products with a total of \$171,425,616 in 1917.

# What Is An Insured Investment?

There are three forms of investment: The insured investment; the apparently sound (but uninsured) investment; and the uncertain, rose-tinted proposition known as a "speculation."

Our Guaranteed First Mortgage Certificates are "insured investments." They are based on first mortgages of not more than fifty per cent of the valuation of income-producing real estate, as determined by State approved appraisal. But in addition to this, the principal and income of the purchaser of these "Guarantees" is insured—guaranteed—by this company, the largest of its kind outside of New York City, with its more than \$15,000,000.00 in resources. They are issued in denominations of \$100 to \$200,000—they pay 6% semi-annually and are tax free in California.

# INCREASED VISIBLE SUPPLY BREAKS CORN.

HEAVY PROFIT TAKING WEAKENS FINISH; OATS CLOSE UNDER.

CHICAGO, July 12.—Black corn reports are increasing in number and in seriousness from the corn belt territory. This led to short covering and to considerable buying of corn and oats for the local market. About \$1.50 for September corn and \$1.00 for October corn were bid for a time. It looked as though prices were to work much higher as there was little pressure on the market.

The bulge, however, brought out heavy profit taking on the part of the buyers on last week's decline and later when the market began to rally, showing an increase of 1,100,000 bushels in corn.

A sharp break followed, the close being 1 1/2¢ lower than the previous day's close. The market was 1 1/2¢ lower than the previous day's close.

July oats continued to show competition and closed at 1 1/2¢ lower than the previous day's close.

# ARMOUR AND COMPANY

7% Ten-Year Convertible Gold Notes  
Due July 15, 1930

Exchangeable after Jan. 3, 1921, if the noteholder desires, into Class "A" Common Stock of the Company on terms which offer possibilities of substantial profits  
Price 94.84 and Interest, Yielding 7 3/4%

Total assets of Armour and Company are reported as equaling almost \$500,000,000.

Net current assets alone are reported at approximately \$230,000,000.

Total gross sales in 1919 were over \$1,000,000,000.

Net earnings available for payment of interest in the last four fiscal years (not including average annual earnings of \$6,003,500 from South American properties, retained for their development) have averaged over \$26,000,000—almost 3 1/2 times the average amount necessary to pay interest charges in that period.

After Jan. 3, 1921, these notes may be exchanged, if desired by the holder, into a like face amount of Class "A" Common Stock, application to list which will be made on both the New York and Chicago Stock Exchanges.

Class "A" Common Stock will be entitled to 8% cash dividends before Class "B" Stock receives 8%. After both classes have received 8% they will share alike in any additional cash dividends that may be paid.

If a purchaser of these notes at the present price later exchanges, his Class "A" stock will cost 94.84%. On a basis of 8% dividends his income will be nearly 8 1/4%.

We recommend these notes as an investment combining safety with ready salability, a liberal interest return and excellent possibilities of increase in value.

Orders should be transmitted by wire or telephone at our expense. A circular more completely descriptive of the Notes will be sent upon request

## INSIST NEW LAW WOULD DEMORALIZE BUSINESS. Enforces Going Concern to Liquidate Upon Death of Wife, Doubles Inher- itance Taxes, Burdens Industry.

(Continued from First Page.)

the admittance of minors or their executors into a half interest in the business, or it may mean that collateral heirs of the wife's estate may acquire an interest in the business, an arrangement which may be extremely distasteful to the husband. "Structurally the bill is very defective, and lawyers are deluged among themselves as to what it means legally. It will require years of judicial interpretation. It was meant as an upheaval in business circles, unthought of today. Business men will have to retrench when entering into agreements with married men, or adopt rules which may be oppressive to the conduct of business.

"This bill has only to do between husband and wife, and it is intended to give the wife equal rights with the husband in the disposition of community property. The wife now has no legal obligation to support the family. The whole responsibility for supporting the family rests on the husband, and a man can be sent to the penitentiary for failing to support his family. With every legal and moral obligation resting upon him to support his dependents, he should be allowed a free hand in meeting his obligations.

"I do not believe that it can be sustained that there is any need for a law of this kind. If it is, it must be on the premise that on his death a man fails to provide properly for his family in his will, and this is a thing which rarely happens."

California lawyer Senator Roseberry that the women of the laws of most other States in regard to the holding of community property. Moreover, if this bill becomes a law, the women who have no bill through will urge the passage of a law giving them a joint ownership in community property during life; this is already their declared intention. If this law is passed, it will discourage nonresidents from coming into California to make their homes and to establish their business, declared Senator Roseberry.

Already the State is overburdened with law which tends to discourage the entrance of outside capital and enterprise.

It was pointed out by Senator Roseberry that the women of the State have a powerful organization built up to put this law through, and that through the 4000 women's clubs of the State an immense influence is wielded. This influence can only be counteracted by an educational campaign. Many married men, unless informed concerning the perils of this law, will vote for it unless they are warned.

BY JUDGE HERVEY.

The injustice of the law in its

working was pointed out by ex-Judge W. R. Hervey, vice-president of the Los Angeles Trust and Savings Bank. In its application, declared Judge Hervey, if the husband dies, the wife can go into court and obtain a homestead, have property set aside exempt from execution for current expenses, and obtain an allowance. On the other hand, if the wife dies first, the husband gets no homestead, or allowance, but must pay inheritance taxes on property which he has acquired.

"The law is based on the presumption that a man will not properly care for his wife and children on his death," he said. "Such a law will penalize the ninety-nine men out of a hundred who make such provision for the sake of the one man who does not do so. It will force the business man to liquidate his business upon the death of his wife, and it will cause credit to be greatly restricted to married men who are engaged in business. It will make it impossible for a man to provide for an aged mother or a dependent sister by the written consent of his wife. No will made by the husband will be valid without the consent of the wife, and this means that the thousands of wills now in existence must be changed to comply with the new law if allowed to go into effect."

**WILL DOUBLE TAX.**

We have the highest inheritance taxes of any State in the Union, declared Judge Hervey, and this would mean that these taxes would be doubled. At the present time an estate passes through the Probate Court an average of every twenty-five years, while under the new law each estate will go into probate every twelve and a half years, doubling the amount of inheritance taxes which must be paid.

Among those who attended yesterday's meeting were W. R. Simon, representing the building industries; Bradner W. Lee, representing the California Bar Association; E. G. Judah, representing the Commercial Board of Los Angeles; G. G. Detzer, representing the Hollywood Board of Trade; Fred G. Golding, representing the International Sales Managers' Association; F. W. Black, representing the Los Angeles Credit Men's Association; D. W. Pierce, representing the Los Angeles Fire Insurance Exchange; E. Ross Penner, representing the Los Angeles Realty Board; Frank H. Peeling, representing the Los Angeles Stock Exchange; R. G. C. Young, representing the Merchants' and Manufacturers' Association; Edwin Janss, representing the Los Angeles Chamber of Commerce; L. C. Brand of the Title Insurance and Trust Company; G. G. Young, B. H. Dyns, A. B. Cass, W. R. Ross and J. S. Torrance.

## WOMAN DEFENDS STATUTE. Lawyer Says Fears of Men From Effects of Property Law are Groundless.

(Continued from First Page.)

which is that acquired by the efforts of either or both spouses after marriage. The law as it now stands and the provisions of the bill under consideration are contrasted as follows: The present law provides that the husband may will one-half of the community property to whomsoever he chooses; the wife cannot dispose by will of one cent of the community property, even though she may have had an equal share with the husband in earning it.

The new bill provides that the husband and wife have equal rights in willing the community property—that is, either spouse may make a will giving one-half of the community property to the other, or to his or her children. If either desires to give to anyone other than the other spouse or children, it may be done by having the other spouse attach written approval thereof to the will.

**IN ABSENCE OF WILL.**

If no will is made, under the present law, upon the death of the wife all the community property vests, without probate, in the husband; but, upon the death of the husband only one-half of the community property vests in the wife.

Under the proposed amendments, upon the death of either spouse, leaving no will, the community property vests in the survivor.

From this it will be readily seen that there is no preference given either husband or wife, but they are upon an equal basis, so far as making a will of the community property is concerned, and revising it under the laws of succession when there is no will; and I would not do men the injustice to even hint that they want any unfair advantage to themselves.

My experience has been that the men who fully understand this measure are the first to subscribe to its principles of fair play.

Fundamentally, the community property law recognizes equal testamentary and succession rights between husband and wife and the California law originally so provided.

**HOW IT WORKS.**

As to the practical working out of this new law, it is only fair to suppose that the business people of California are as practical and reasonable as those of other States, and laws similar to this one have been in successful operation for many years past in several of our western States. Arizona has a similar law and the following quotation is taken from a letter recently received from an attorney of a prominent title and trust company of Phoenix:

**Yellow Car Service  
to Hollywood is to  
Be Reality Soon.**

Yellow car service for Hollywood will be a reality soon as the result of an announcement made yesterday by the Los Angeles Railway that the extension of the Western-avenue line to Santa Monica Boulevard will begin next week. This move has been advocated for a considerable time, but the actual work was held up by the war and shortage of supplies. Now sufficient material has been received to start the construction and the time necessary for completion will depend on the speed with which ties, tracks, trolley wire and the necessary electrical apparatus can be procured.

Double tracks will be installed on the half-mile strip from the present terminal at Western and Melrose avenues to Santa Monica Boulevard at an expenditure of more than \$50,000.
